Dyer,2020-11-01 Patrick

Dyer's ninth book in the at work series marks a return to Scania to study the 3 series trucks produced between 1988 and 1996 with the emphasis on the 113 and 143 models. In much the same way as these trucks evolved from the previous 2 series and LB 1 series so too does the book taking the story forward from the previous titles covering those ranges. For Scania masters of the modular system and evolutionary engineering processes the 3 series represented the pinnacle of development for designs born decades earlier. Industry recognition of its achievement came early with the range being awarded the Truck of the Year title in 1989. With over 200 photographs provided by the manufacturer and enthusiasts Scania 113 143 at Work charts the story of the 3 series through informative text in the popular and familiar style of previous at work titles from the same author.

Know Your Helicopters Thomas Hargreave, 2017-01-20 Know Your Helicopters is a pocket sized book detailing 44 types of helicopters most commonly seen in service today from the smallest Robinson to the biggest Mil including Bells Boeings Sikorskys and many more. A photograph of each machine is included. Tom Hargreave served 18 years in the British Army as an Army Air Corps pilot. In this time he accumulated 2 500 hours of flight time across a variety of helicopter types including the Gazelle Lynx Agusta 109 and the Apache.

Trucks in the 1980s: The Photos of David Wakefield Nick Ireland, 2015-07-20 Many would argue that the 1980s were a better time for truck drivers than nowadays there were no cell phones there was less traffic on the road CB radio was all the rage and stickers were the simple heart of truck customizing. However the transport industry is constantly evolving and companies must adapt their vehicles to keep pace with the developments. As a result vehicle design and liveries regularly change. Many of the companies around in the 1980s have expired and been forgotten. Most of the trucks from that time are long gone to the great scrapyard in the sky. David Wakefield has been working in the transport industry for over 30 years and has been taking photographs of trucks since the early 1980s. He has amassed thousands of high quality images producing one of the most comprehensive photographic collections of the time but many of his photographs have never been previously published. In this vivid compilation Nick Ireland has collated 300 of David's images from the 1980s in order to preserve them and make them publicly available for the first time. The book features trucks from all over the world and it is a must have for current and former truckers who will enjoy being reminded of the good old days as well as anyone else with an interest in transport history. Subject: History Transportation Photography.
