## **Handbook On Neural Information Processing Intelligent Systems Reference Library:**

**Handbook on Neural Information Processing** Monica Bianchini, Marco Maggini, Lakhmi C. Jain, 2013-04-12 This handbook presents some of the most recent topics in neural information processing covering both theoretical concepts and practical applications The contributions include Deep architectures Recurrent recursive and graph neural networks Cellular neural networks Bayesian networks Approximation capabilities of neural networks Semi supervised learning Statistical relational learning Kernel methods for structured data Multiple classifier systems Self organisation and modal learning Applications to content based image retrieval text mining in large document collections and bioinformatics This book is thought particularly for graduate students researchers and practitioners willing to deepen their knowledge on more advanced connectionist models and related learning paradigms

**The Handbook on Reasoning-Based Intelligent Systems** Kazumi Nakamatsu, 2013 This book consists of various contributions in conjunction with the keywords OC reasoning OCO and OC intelligent systems OCO which widely covers theoretical to practical aspects of intelligent systems Therefore it is suitable for researchers or graduate students who want to study intelligent systems generally

**Handbook of Research on Applied Intelligence for Health and Clinical Informatics** Thakare, Anuradha Dheeraj, Wagh, Sanjeev J., Bhende, Manisha Sunil, Anter, Ahmed M., Gao, Xiao-Zhi, 2021-10-22 Currently informatics within the field of public health is a developing and growing industry Clinical informatics are used in direct patient care by supplying medical practitioners with information that can be used to develop a care plan Intelligent applications in clinical informatics facilitates with the technology based solutions to analyze data or medical images and help clinicians to retrieve that information Decision models aid with making complex decisions especially in uncertain situations The Handbook of Research on Applied Intelligence for Health and Clinical Informatics is a comprehensive reference book that focuses on the study of resources and methods for the management of healthcare infrastructure and information This book provides insights on how applied intelligence with deep learning experiential learning and more will impact healthcare and clinical information processing The content explores the representation processing and communication of clinical information in natural and engineered systems This book covers a range of topics including applied intelligence medical imaging telehealth and decision support systems and also looks at technologies and tools used in the detection and diagnosis of medical conditions such as cancers diabetes heart disease lung disease and prenatal syndromes It is an essential reference source for diagnosticians medical professionals imaging specialists data specialists IT consultants medical technologists academicians researchers industrial experts scientists and students

**Pattern Recognition. ICPR International Workshops and Challenges** Alberto Del Bimbo, Rita Cucchiara, Stan Sclaroff, Giovanni Maria Farinella, Tao Mei, Marco Bertini, Hugo Jair Escalante, Roberto Vezzani, 2021-02-20 This 8 volumes set constitutes the refereed of the 25th International Conference on Pattern Recognition Workshops ICPR 2020 held virtually in Milan Italy and rescheduled to January 10 11 2021 due to Covid 19 pandemic The 416 full papers

presented in these 8 volumes were carefully reviewed and selected from about 700 submissions The 46 workshops cover a wide range of areas including machine learning pattern analysis healthcare human behavior environment surveillance forensics and biometrics robotics and egovision cultural heritage and document analysis retrieval and women at ICPR2020

Proceedings of 2021 International Conference on Autonomous Unmanned Systems (ICAUS 2021) Meiping Wu,Yifeng Niu,Mancang Gu,Jin Cheng,2022-03-18 This book includes original peer reviewed research papers from the ICAUS 2021 which offers a unique and interesting platform for scientists engineers and practitioners throughout the world to present and share their most recent research and innovative ideas The aim of the ICAUS 2021 is to stimulate researchers active in the areas pertinent to intelligent unmanned systems The topics covered include but are not limited to Unmanned Aerial Ground Surface Underwater Systems Robotic Autonomous Control Navigation and Positioning Architecture Energy and Task Planning and Effectiveness Evaluation Technologies Artificial Intelligence Algorithm Bionic Technology and Its Application in Unmanned Systems The papers showcased here share the latest findings on Unmanned Systems Robotics Automation Intelligent Systems Control Systems Integrated Networks Modeling and Simulation It makes the book a valuable asset for researchers engineers and university students alike

**Advances in Bioinformatics** Vijai Singh,Ajay Kumar,2021-07-31 This book presents the latest developments in bioinformatics highlighting the importance of bioinformatics in genomics transcriptomics metabolism and cheminformatics analysis as well as in drug discovery and development It covers tools data mining and analysis protein analysis computational vaccine and drug design Covering cheminformatics computational evolutionary biology and the role of next generation sequencing and neural network analysis it also discusses the use of bioinformatics tools in the development of precision medicine This book offers a valuable source of information for not only beginners in bioinformatics but also for students researchers scientists clinicians practitioners policymakers and stakeholders who are interested in harnessing the potential of bioinformatics in many areas

**Handbook of Research on Network-Enabled IoT Applications for Smart City Services** Reddy, K. Hemant Kumar,Roy, Diptendu Sinha,Mishra, Tapas Kumar,Hussain, Mir Wajahat,2023-09-26 The rapid growth of IoT and its applications in smart cities pose significant challenges for academic scholars The increasing number of interconnected devices and the massive amounts of data they generate strain traditional networks leading to inefficiencies and security vulnerabilities Additionally the centralized control plane in Software Defined Networks SDN presents a single point of failure hindering network performance while IoT devices themselves are susceptible to attacks compromising user data and privacy To address these pressing issues Network Enabled IoT Applications for Smart City Services offers a compelling solution Edited by Dr K Hemant Kumar Reddy Dr Diptendu SinhaRoy and Tapas Mishra this book advocates leveraging SDN to handle high frequency data streams effectively It also proposes the integration of blockchain technology to enhance security and reliability in IoT applications offering a roadmap for scholars to improve network efficiency security and reliability in IoT and smart city domains With their extensive

expertise the authors provide academic scholars with a comprehensive and innovative resource that inspires further research and development in this evolving field enabling them to make significant contributions to the advancement of IoT and smart city technologies     *Intelligent Decision Technologies* Rui Neves-Silva,Lakhmi C. Jain,Robert J. Howlett,2015-06-09 This book presents the 57 papers accepted for presentation at the Seventh KES International Conference on Intelligent Decision Technologies KES IDT 2015 held in Sorrento Italy in June 2015 The conference consists of keynote talks oral and poster presentations invited sessions and workshops on the applications and theory of intelligent decision systems and related areas The conference provides an opportunity for the presentation and discussion of interesting new research results promoting knowledge transfer and the generation of new ideas The book will be of interest to all those whose work involves the development and application of intelligent decision systems     **Neural Information Processing** Biao Luo,Long

Cheng,Zheng-Guang Wu,Hongyi Li,Chaojie Li,2023-11-15 The six volume set LNCS 14447 until 14452 constitutes the refereed proceedings of the 30th International Conference on Neural Information Processing ICONIP 2023 held in Changsha China in November 2023 The 652 papers presented in the proceedings set were carefully reviewed and selected from 1274 submissions They focus on theory and algorithms cognitive neurosciences human centred computing applications in neuroscience neural networks deep learning and related fields     Smart Applications and Data Analysis Mohamed

Hamlich,Fadi Dornaika,Carlos Ordonez,Ladjel Bellatreche,Hicham Moutachaouik,2024-12-23 This two volume set CCIS 2167 2168 constitutes the proceedings of the 5th International Conference on Smart Applications and Data Analysis SADASC 2024 held in Tangier Morocco in April 2024 The 30 full papers presented together with 10 short papers were carefully reviewed and selected from 91 submissions They cover the following topics designing and modeling data management tinyML and anomaly detection network technologies and IOT control dynamic systems and optimisation and exploitation and exploration

**The Book of Why** Judea Pearl,Dana Mackenzie,2018-05-15 A Turing Award winning computer scientist and statistician shows how understanding causality has revolutionized science and will revolutionize artificial intelligence Correlation is not causation This mantra chanted by scientists for more than a century has led to a virtual prohibition on causal talk Today that taboo is dead The causal revolution instigated by Judea Pearl and his colleagues has cut through a century of confusion and established causality the study of cause and effect on a firm scientific basis His work explains how we can know easy things like whether it was rain or a sprinkler that made a sidewalk wet and how to answer hard questions like whether a drug cured an illness Pearl s work enables us to know not just whether one thing causes another it lets us explore the world that is and the worlds that could have been It shows us the essence of human thought and key to artificial intelligence Anyone who wants to understand either needs The Book of Why     **Interactive Granular Computations in Networks and Systems**

**Engineering: A Practical Perspective** Andrzej Jankowski,2017-06-25 The book outlines selected projects conducted under the supervision of the author Moreover it discusses significant relations between Interactive Granular Computing IGrC and

numerous dynamically developing scientific domains worldwide along with features characteristic of the author's approach to IGrC. The results presented are a continuation and elaboration of various aspects of Wisdom Technology initiated and developed in cooperation with Professor Andrzej Skowron. Based on the empirical findings from these projects, the author explores the following areas: a) understanding the causes of the theory and practice gap problem TPGP in complex systems engineering; CSE b) generalizing computing models of complex adaptive systems CAS in particular natural computing models by constructing an interactive granular computing IGrC model of networks of interrelated interacting complex granules; c) granules belonging to a single agent and/or to a group of agents; c) developing methodologies based on the IGrC model to minimize the negative consequences of the TPGP. The book introduces approaches to the above issues using the proposed IGrC model. In particular, the IGrC model refers to the key mechanisms used to control the processes related to the implementation of CSE projects. One of the main aims was to develop a mechanism of IGrC control over computations that model a project's implementation processes to maximize the chances of its success while at the same time minimizing the emerging risks. In this regard, the IGrC control is usually performed by means of properly selected and enforced among project participants' project principles. These principles constitute examples of c) granules expressed by complex, vague concepts represented by c) granules too. The c) granules evolve with time; in particular, the meaning of the concepts is also subject of change. This methodology is illustrated using project principles applied by the author during the implementation of the POLTAX, AlgoTradix, Merix, and Excavio projects outlined in the book.

*Evolutionary Multi-Criterion Optimization*  
Michael Emmerich, André Deutz, Hao Wang, Anna V. Kononova, Boris Naujoks, Ke Li, Kaisa Miettinen, Iryna Yevseyeva, 2023-03-09. This book constitutes the refereed proceedings of the 12th International Conference on Evolutionary Multi-Criterion Optimization EMO 2022 held in Leiden, The Netherlands during March 20-24, 2023. The 44 regular papers presented in this book were carefully reviewed and selected from 65 submissions. The papers are divided into the following topical sections: Algorithm Design and Engineering, Machine Learning and Multi-criterion Optimization, Benchmarking and Performance Assessment, Indicator Design and Complexity Analysis, Applications in Real World Domains, and Multi-Criteria Decision Making and Interactive Algorithms.

**The Era of Artificial Intelligence, Machine Learning, and Data Science in the Pharmaceutical Industry**  
Stephanie K. Ashenden, 2021-04-23. The Era of Artificial Intelligence, Machine Learning, and Data Science in the Pharmaceutical Industry examines the drug discovery process, assessing how new technologies have improved effectiveness. Artificial intelligence and machine learning are considered the future for a wide range of disciplines and industries, including the pharmaceutical industry. In an environment where producing a single approved drug costs millions and takes many years of rigorous testing prior to its approval, reducing costs and time is of high interest. This book follows the journey that a drug company takes when producing a therapeutic from the very beginning to ultimately benefitting a patient's life. This comprehensive resource will be useful to those working in the pharmaceutical

industry but will also be of interest to anyone doing research in chemical biology computational chemistry medicinal chemistry and bioinformatics Demonstrates how the prediction of toxic effects is performed how to reduce costs in testing compounds and its use in animal research Written by the industrial teams who are conducting the work showcasing how the technology has improved and where it should be further improved Targets materials for a better understanding of techniques from different disciplines thus creating a complete guide Handbook of Green Engineering Technologies for Sustainable Smart Cities K. Saravanan,G. Sakthinathan,2021-07-26 Handbook of Green Engineering Technologies for Sustainable Smart Cities focuses on the complete exploration and presentation of green smart city applications techniques and architectural frameworks It provides detailed coverage of urban sustainability spanning across various engineering disciplines The book discusses and explores green engineering technologies for smart cities and covers various engineering disciplines and environmental science It emphasizes techniques application frameworks tools and case studies All chapters play a part in the evolution of sustainable green smart cities and present how to solve environmental issues by applying modern industrial IoT solutions This book will benefit researchers smart city practitioners academicians university students and policy makers

*Fuzzy Logic and Soft Computing Applications* Alfredo Petrosino,Vincenzo Loia,Witold Pedrycz,2017-02-06 This book constitutes the proceedings of the 11th International Workshop on Fuzzy Logic and Applications WILF 2016 held in Naples Italy in December 2016 The 22 revised full papers presented together with 2 invited lectures were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on fuzzy measures and transforms granularity and multi logics clustering and learning knowledge systems and soft computing and applications **Innovation in Medicine and Healthcare 2014** M. Graña,C. Toro,R.J. Howlett,2015-01-06 Advances are constantly being made in the fields of medicine and healthcare and keeping abreast of them is not always easy This book presents the proceedings of the second KES International Conference on Innovation in Medicine and Healthcare InMed 14 held in San Sebastian Spain in July 2014 The conference was attended by researchers and engineers managers students and practitioners from a broad spectrum of medically related fields and this multidisciplinary group discussed the ways in which technological and methodological innovation knowledge exchange and enterprise can be applied to issues relating to medicine surgery healthcare and the issues of an ageing population A central theme of the conference was smart medical and healthcare systems which explored how modern intelligent systems can contribute to the solution of problems faced by healthcare and medical practitioners today and addressed the application of the systems The 43 papers included here provided a useful and interesting reference for anyone requiring an overview of current innovations in healthcare **Neural Information Processing** Long Cheng,Andrew Chi Sing Leung,Seiichi Ozawa,2018-12-03 The seven volume set of LNCS 11301 11307 constitutes the proceedings of the 25th International Conference on Neural Information Processing ICONIP 2018 held in Siem Reap Cambodia in December 2018 The 401 full papers presented were carefully reviewed and selected from 575

submissions The papers address the emerging topics of theoretical research empirical studies and applications of neural information processing techniques across different domains The 6th volume LNCS 11306 is organized in topical sections on time series analysis social systems and image and signal processing **Handbook of Natural Language Processing** Robert Dale, Hermann Moisl, Harold Somers, 2000-07-25 This study explores the design and application of natural language text based processing systems based on generative linguistics empirical corpus analysis and artificial neural networks It emphasizes the practical tools to accommodate the selected system **Handbook of Research on Emerging Trends and Technologies in Librarianship** Ekoja, Innocent Isa, Ogbomo, Esoswo Francisca, Okuonghae, Omorodion, 2022-01-07 A fundamental dynamism of the library is its continuous adoption of trending technologies and innovations for enhanced service delivery To meet the needs of library users in the Fourth Industrial Revolution an era characterized by digital revolution knowledge economy globalization and information explosion libraries have embraced innovations and novel technologies such as artificial intelligence blockchain social mediation tools and the internet of things IoT The Handbook of Research on Emerging Trends and Technologies in Librarianship documents current research findings and theoretical studies focused on innovations and technologies used in contemporary libraries This book provides relevant models theoretical frameworks the latest empirical research findings and sound theoretical research regarding the use of novel technologies in libraries Covering topics such as digital competitive advantage smart governance and social media this book is an excellent resource for librarians archivists library associations and committees researchers academicians students faculty of higher education computer scientists programmers and professionals

The book delves into Handbook On Neural Information Processing Intelligent Systems Reference Library. Handbook On Neural Information Processing Intelligent Systems Reference Library is a vital topic that needs to be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Handbook On Neural Information Processing Intelligent Systems Reference Library, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
  - Chapter 1: Introduction to Handbook On Neural Information Processing Intelligent Systems Reference Library
  - Chapter 2: Essential Elements of Handbook On Neural Information Processing Intelligent Systems Reference Library
  - Chapter 3: Handbook On Neural Information Processing Intelligent Systems Reference Library in Everyday Life
  - Chapter 4: Handbook On Neural Information Processing Intelligent Systems Reference Library in Specific Contexts
  - Chapter 5: Conclusion
2. In chapter 1, this book will provide an overview of Handbook On Neural Information Processing Intelligent Systems Reference Library. The first chapter will explore what Handbook On Neural Information Processing Intelligent Systems Reference Library is, why Handbook On Neural Information Processing Intelligent Systems Reference Library is vital, and how to effectively learn about Handbook On Neural Information Processing Intelligent Systems Reference Library.
3. In chapter 2, this book will delve into the foundational concepts of Handbook On Neural Information Processing Intelligent Systems Reference Library. This chapter will elucidate the essential principles that need to be understood to grasp Handbook On Neural Information Processing Intelligent Systems Reference Library in its entirety.
4. In chapter 3, the author will examine the practical applications of Handbook On Neural Information Processing Intelligent Systems Reference Library in daily life. This chapter will showcase real-world examples of how Handbook On Neural Information Processing Intelligent Systems Reference Library can be effectively utilized in everyday scenarios.
5. In chapter 4, this book will scrutinize the relevance of Handbook On Neural Information Processing Intelligent Systems Reference Library in specific contexts. This chapter will explore how Handbook On Neural Information Processing Intelligent Systems Reference Library is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, this book will draw a conclusion about Handbook On Neural Information Processing Intelligent Systems Reference Library. The final chapter will summarize the key points that have been discussed throughout the book. This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Handbook On Neural Information Processing Intelligent Systems Reference Library.

### **Handbook On Neural Information Processing Intelligent Systems Reference Library Introduction**

In today's digital age, the availability of Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Handbook On Neural Information Processing Intelligent Systems Reference Library versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public.

Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Handbook On Neural Information Processing Intelligent Systems Reference Library books and manuals for download and embark on your journey of knowledge?

### **FAQs About Handbook On Neural Information Processing Intelligent Systems Reference Library Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Handbook On Neural Information Processing Intelligent Systems Reference Library is one of the best book in our library for free trial. We provide copy of Handbook On Neural Information Processing Intelligent Systems Reference Library in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Handbook On Neural Information Processing Intelligent Systems Reference Library. Where to download Handbook On Neural Information Processing Intelligent Systems Reference

Library online for free? Are you looking for Handbook On Neural Information Processing Intelligent Systems Reference Library PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Handbook On Neural Information Processing Intelligent Systems Reference Library. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Handbook On Neural Information Processing Intelligent Systems Reference Library are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Handbook On Neural Information Processing Intelligent Systems Reference Library. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Handbook On Neural Information Processing Intelligent Systems Reference Library To get started finding Handbook On Neural Information Processing Intelligent Systems Reference Library, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Handbook On Neural Information Processing Intelligent Systems Reference Library So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Handbook On Neural Information Processing Intelligent Systems Reference Library. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Handbook On Neural Information Processing Intelligent Systems Reference Library, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Handbook On Neural Information Processing Intelligent Systems Reference Library is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Handbook On Neural Information Processing Intelligent Systems Reference Library is universally compatible with any devices to read.
