Githuku, 2021-10-18 In A Tapestry of African Histories With Longer Times and Wider Geopolitics contributors demonstrate that African historians are neither comfortable nor content with studying continental or global geopolitical social and economic events across the superficial divide of time as if they were disparate or disconnected Instead the chapters within the volume reevaluate African history through a geopolitically transcendent lens that brings African countries into conversation with other pertinent histories both within and outside of the continent The collection analyzes the pre and post colonial eras within African countries such as Kenya Malawi and Sudan examining major historical figures and events struggles for independence and stability contemporary urban settlements social and economic development as well as constitutional legal and human rights issues that began in the colonial era and persist to this day **For Security Personnel, USE OF FORCE, 2020** Mursel Sevindik, 2020-04-05 This book covers Use of Force issues for law enforcement officer The goal is to provide officers with an understanding of the various force options available to them and to make them aware of international standards regarding use of force The use of force is a necessary and at times unavoidable part of the duty of a law enforcement officer Officers should use no more force than is absolutely necessary to achieve a legitimate law enforcement objective During their normal duties officers often encounter various levels of dangerous and violent situations They are often faced with situations that require the use of force in order to effect an arrest or ensure public safety Resistance can be physical verbal and even psychological in nature Sometimes the officer has to use force and even firearms to bring the situation to an end The authority to use force and firearms is a very exclusive one There are many restrictions for their use The essential principles for the use of force are those of legality necessity and proportionality The objective for using force is to overcome the suspect's resistance to an officer's lawful purpose The officer must be able to articulate why a specific use of force was justified The officer's justifications to use force must be so clear to the officer involved that he would not hesitate when faced with this decision The consequences of hesitation or inaction because of inadequate training can be devastating Therefore the officer must carefully consider the use of force Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

enforcement today are the traditional and hinged variety In addition officers also use plastic cuffs in some situations Handcuffs do not entirely immobilize a suspect Regardless of the type used it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement **For Security Personnel, HARD EMPTY HAND CONTROL, 2020 Mürsel**
