

Chapter 1: Introducing Information Literacy

Types of Information literacy:

1. Computer Literacy
2. Media Literacy
3. Digital Literacy

Define information literacy:

The ability to know when information is needed, where to find it and how to evaluate and use it once it has been found.

Explain and discuss why it is important to be information literate:

1. **TO BE SUCCESSFUL IN YOUR STUDIES AND RESEARCH:** the ability to manipulate and use information gives you the confidence that is critical to academic success and personal, self-directed learning.
2. **FOR YOUR EVERYDAY LIVING AND LEISURE ACTIVITIES:** It provides you with a way of knowing and making sense of the world around you and enables you to meet the increasing demands of modern life.
3. **TO COPE AND DO WELL IN YOUR CHOSEN PROFESSION OR JOB:** You are able to apply and transfer these skills to many other areas of learning and research. You are also aware of the empowering role that information plays in your social life and at work.

Identify the competencies of an information literate person:

Competencies: The skills and capabilities to do something successfully or properly.

1. To know when information is needed and how much is needed.
2. To be able to find information (knowledge about sources, as well as the necessary technology skills)
3. To be able to evaluate the information.
4. To be able to use the information to accomplish a specific goal.
5. To understand the importance of information and how to use it responsibly.
6. To communicate effectively in the digital environment.

Identify and explain the theoretical models and frameworks for information literacy competencies:

- Models for teaching information literacy skills (For example: Big 6 for teaching information literacy in tertiary institutions)

Big6™ information literacy model

1. Task definition

2. Information seeking strategies

3. Location and access

4. Use of information

5. Synthesis

6. Evaluation

Information Literacy Test Out Study Guide

Albert A Gayle

Information Literacy Test Out Study Guide:

The Evaluation and Measurement of Library Services Joseph R. Matthews, 2017-10-27 This guide provides library directors managers and administrators in all types of libraries with complete and up to date instructions on how to evaluate library services in order to improve them It s a fact today s libraries must evaluate their services in order to find ways to better serve patrons and prove their value to their communities In this greatly updated and expanded edition of Matthews seminal text you ll discover a breadth of tools that can be used to evaluate any library service including newer tools designed to measure customer and patron outcomes The book offers practical advice backed by solid research on virtually every aspect of evaluation including quantitative and qualitative tools data analysis and specific recommendations for measuring individual services such as technical services and reference and interlibrary loan New chapters give readers effective ways to evaluate critical aspects of their libraries such as automated systems physical space staff performance management frameworks eBooks social media and information literacy The author explains how broader and more robust adoption of evaluation techniques will help library managers combine traditional internal measurements such as circulation and reference transactions with more customer centric metrics that reflect how well patrons feel they are served and how satisfied they are with the library By applying this comprehensive strategy readers will gain the ability to form a truer picture of their library s value to its stakeholders and patrons

Information Literacy for Today's Diverse Students Alex Berrio Matamoros, 2018-11-21 This book helps students from diverse backgrounds and with various learning styles to master the material they learn with these practical examples for librarians teaching higher education information literacy Cultural influences in students lives often tied to aspects of their background such as ethnicity national origin socioeconomic status gender and religion play a large role in determining how they learn Learning styles additionally differ among students making it difficult to know how to best support all students This book introduces academic instruction librarians to a differentiated instruction DI approach that will help them to offer students a choice of how to engage with course content assess their understanding of the material and demonstrate mastery of the material to the instructor allowing students to actively participate in their education It explains various instructional techniques used in DI and provides detailed step by step examples for implementing educational technology tools supporting each technique Accompanying the examples are tips for overcoming known challenges in implementation and best practices for successful adoption of the techniques Readers will understand how to begin using the most popular types of educational technology tools for academic information literacy instruction
