Prior edition title: 35 Strategies for Guiding Readers through Informational Texts. New to This Edition: Now features more strategies including 16 that are completely new. **Language and Literacy Connections** Geraldine P. Wallach, Elaine Ocampo, 2025-06-02

Language and Literacy Connections: Intervention for School Age Children and Adolescents, Second Edition, takes readers on a path of knowledge steeped in principles and practical applications. Integrating language learning and disorders and literacy together in a coherent and cohesive narrative, it covers the challenges facing school-age students from early elementary levels through high school. Using past and current research and interventions from speech language pathology (SLP) and reading and literacy arenas, the authors present transcripts, cases, and detailed intervention sessions to provide a template for daily practice. The text raises questions relating to why am I doing this and provides some answers to this most complex yet basic question. The text has four major goals: 1) to encourage readers to evaluate past and current clinical and educational practices in language intervention at school-age levels; 2) to present intervention goals and activities that are theoretically sound but may require further research scrutiny; 3) to explore aspects of curriculum relevant language intervention for students with language learning disabilities; 4) to provide guidelines for school-based practitioners that clarify how professionals with diverse backgrounds and roles share responsibility in language literacy and academic programming. While taking a strong language disorders perspective, the text would be a useful resource for teachers and other specialists who share students with language learning disabilities (LLD) with their school-based speech language pathologists (SLPs). New to the Second Edition: A new chapter, Application Activities to Stretch Your Knowledge, includes problems with possible answers and rationales that review significant concepts in language and literacy with a focus on adolescents. A roadmap to scenarios and reports and key information at the beginning of the text. Application activities in Chapter 10 with icons that highlight easy access to key information and connections with understanding the Whys. Key Features: Questions at the beginning of each chapter that reflect concerns of SLPs and their teams. Projects and assignments that supplement and review the material. Examples of teaching modules with practical lesson plans that integrate the role of SLPs in
