Innovation Excellence In Central And Eastern Europe A Pwc Experience:

Innovation Excellence in Central and Eastern Europe Mike Kubena, Mark Okes-Voysey, Andrej Vizjak, 2012-10-29

Innovation is high on the executive agenda in virtually every industry because companies can no longer develop markets and access them without innovation. Due to the dynamics of over a billion new customers mostly in emerging markets, radical new technologies and science and global connectivity, our decade will be the most innovative time since the industrial revolution. There is no time to lose as the increasing democratic standards in Central and Eastern Europe (CEE) and the ongoing globalization have already led to a new wave of M&A activities. The main question is: What must an enterprise do to stay in the market and even become more successful? Imitation and adaptation are only a possibility in the short run for a special type of company. Finally, Central and Eastern European countries face the challenge of not only responding to developments initiated elsewhere but also of playing a more active and creative role in initiating change. Through this book, PwC CEE will show you that innovation success is possible. Just do it.

Specifically, the expert contributors address the incapacity of CEE to play a more significant role in the knowledge-based competitiveness of the EU. They question whether it is possible to bolster this capacity with innovation technology industry-specific policies and discuss the changes required at EU and individual country levels to remove sector and industry-specific obstacles to greater competitiveness based on innovation.
