Forty Years with Ford Tractors David Pearson,2019-10-01 David Pearson spent more than four decades working for Ford s tractor business starting on the production line at the maker s Dagenham factory before moving to the Basildon tractor plant opened in 1964 He went on to become the maker s UK sales manager and earned a reputation among farmers and dealers as the man who knew all there was to know about Ford tractors Along the way he was involved in the development of some of the most famous machines to bear the blue livery from the Dexta to the 7000 and the FW articulated tractors to the 7810 Edited by agricultural journalist Martin Rickatson Forty Years with Ford Tractors builds on a series of recollections which originally featured in Classic Tractor magazine and

includes additional material to tell David's fascinating story in full. It includes a comprehensive selection of black and white and colour photographs many of which have never before been published and will be of interest to all Ford fans and tractor fans more generally. Front cover photograph © Dave Franciosi www.farmingphotography.co.uk You Call, We Haul Mat Ireland, 2019-08-01 Best known for founding international haulier Trans UK Bob Carter was involved in the ground breaking changes occurring in British transport of the 60s and 70s. Beginning in the army where he witnessed nuclear testing on Christmas Island in the 1950s Carter went on to be a driver, office worker and finally company owner. Never afraid to get his hands dirty Bob was able to turn his hand to any aspect of his business operation from repairing mechanical defects to operating forklifts and driving his own trucks. In 1975 he set out on Trans UK's maiden run to Iran in his Humber Sceptre with four of his trucks in convoy the first trip of many for the company. The denationalization of BRS and the implementation of the O licence the rapid growth of privately owned haulage companies combined with the Middle East oil boom of the 70s all helped Bob to develop a successful British and international transport operation. Including nearly 300 previously unpublished photos You Call We Haul is an inspirational story which will appeal to those with an interest in the heyday of Middle East travel and those with a general love of great British transport companies. Subject Middle East Studies Transportation Biography Juggernaut Drivers Leslie Purdon, 2006-11-01 Leslie Purdon lives and breathes trucking. Truck and Driver. It's the 1970s. Trucker Dennis Richardson Rich revels in the laughs and camaraderie of his life on the road. He sets up a transport company North Kent with two pals. Benny is the one with the short fuse. Rich tries to calm him down when he's not winding him up. The irrepressible Chuckles has his own way of dealing with tachographs and then there's the indispensable Jean the rock on which they rest. The determined team go through humorous and sometimes extreme exploits as they strive to stay afloat. They run legal when they can and cut corners when necessary gambling on the new Scandinavian trucks that are changing the industry. They are cheated out of their earnings but still come up smiling **Seventy Years of Farm Tractors 1930-2000** Brian Bell, 2020-02-20 By the end of the twentieth century there were some half million tractors on British farms more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4 wheel drive machines with air conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis Chalmers to Zetor one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the histories of the companies and their major models illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold starting aids. He includes a glossary and full index. This book replaces the author's earlier successful *Fifty Years of Farm Tractors*. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty first century *Starks' Harvesters* Robert S.

Keep on Truckin': 40 Years on the Road Mick Rennison,2016-03-16 Did the Good Old Days ever really exist Mick Rennison is not so sure After miraculously passing his test in an Atkinson Borderer way back in 1974 Mick drove in the days when crooks and con men seemed to run the haulage industry And Mick worked for most of them Earning crap wages from arrogant bosses with the constant threat of your P45 hanging over your head he learned his trade through trial and error many trials and lots of errors His career took him all over Europe and Scandinavia taking musical shows to Norway JCBs to Greece and supermarket deliveries down to Gibraltar Driving for a variety of firms he double manned trucks with his wife Jo for nearly 10 years Along the way he has been blown over in high winds outwitted hijackers and held hostage by striking Spanish drivers Now living on a narrow boat on the Grand Union Canal Mick is approaching retirement and reflects on his varied career With humour and not a little sarcasm he concludes that as good as those days were he certainly wouldn t want to go back
