

Mastering Copperplate Calligraphy A Step-by-Step Manual

ELEANOR WINTERS

S

The 'S' in Figures 1, 2, and 3 are variations on the standard 'S'. Each is connected to the previous letter. Figure 4 can be made as a single letter.

Figure 1 is connected to the letters of the diagram in Figure 2, so that the only one whose letters carrying the signature.

The difference of a loop in the first three leads to number 4 makes the variation more casual than the others. This is also a one-letter letter.

Figure 4, like the first in Figure 1 on p. 111, is based on the standard form of the letter.

O

Each of these 'O's is made as a single letter. Figure 2 is part of the same family as the 'S' in Fig. 2 (p. 111) and the 'C' in Figure 3 (p. 117).

Figure 1 in Figure 1 and 2 can be connected to the letter following a semi-circle loop in Figure 1 because the loop is in a single letter.

Figure 2 begins with the loop in number of the standard 'O'. This variation might be considered a letter movement.

P

Many of the variations on the 'P' are the same as those of the 'S'. The one on the right has two differences.

The first number of Figure 1 is a single letter with a loop coming from the right, if the loop is not made enough, there isn't the sufficient space for the second stroke.
