Arowosegbe,2016-12-29 Claude E Ake radical African political philosopher of the first four decades of the postcolonial era stands out as a progressive social force whose writings continue to have appeal and relevance long after his untimely death in 1996 In examining Akes intellectual works Jeremiah O Arowosegbe sets out the framework of his theoretical orientations in the context of his life and reveals him as one of the most fertile and influential voices within the social sciences community in Africa In tracing the genesis and development of Akes political thought Arowosegbe draws attention to Akes compelling account of the material implications and political costs of European colonisation of Africa and his conception of a different future for the continent Approaching his subject from a Gramscian and

Marxist perspective Arowosegbe elucidates how Akes philosophy demonstrates the intimate entanglement of class and social cultural and historical issues and how as a contributor to endogenous knowledge production and postcolonial studies on Africa Ake is firmly rooted in a South driven critique of Western historicism It is Arowosegbes conviction that engaged scholars are uniquely important in challenging existing hierarchies oppressive institutions and truth regimes and the structures of power that produce and support them and much can be drawn from their contributions and failings alike This work contributes to a hitherto neglected focus area the impact across the continent of the ideas and lives of African and other global South academics intellectuals and scholar activists Among them Ake is representative of bold scholarly initiatives in asserting the identities of African and other non Western cultures through a mindful rewriting of the intellectual and nationalist histories of these societies on their own terms In foregrounding the contribution of Ake with respect to both autochthonous traditional insights and endogenous knowledge production on the continent Arowosegbe aims at fostering the continuance of a living and potent tradition of critique and resistance Engaging with the lingering impact of colonialism on previously colonised societies this timely book will be of immense value to scholars and students of philosophy and political science as well as African intellectual history African studies postcolonial studies and subaltern studies *Time to Choose* Dawn Kazmierzak,2014-03-24 Hilda Gutwein the youngest of eight children born to a German farmer grew up in a war zone the Balkan States Her family lived under socialism communism and Hitlers Third Reich Eventually they were caught between two totalitarian forms of government and Hildas father had to make a choice for his family stay and defend their homeland or leave everything behind Follow the story of Hildas journey from a land controlled by fear and brutality to a land of freedom Moreover its an account of unwavering faith in the One who is trustworthy and unchanging no matter what comes Through Hildas accounts youll gain insights about A culture headed to the default of a dictator monarch or centralized power How propaganda instills fear and a need for government protection The true role and abilities of government How censorship deceptive concepts and false ideologies can spread through media Why freedom is prized by most of the worlds citizenry but is rarely obtained Beyond an inspiring account each chapter ends with a Connecting the Dots section in which you and your family can begin to think about it transmit your values and formulate your own plans to mind the minds souls and virtues of your children your community and your nation In light of the climate of your country today where will you look for your familys future The time is now Its your turn to choose **History** Adam Hart-Davis,2010 **Connecting the Dots in World History, A Teacher's Literacy Based Curriculum** Chris Edwards,2015-12-04 In his previously written articles and books Chris Edwards has argued that Teaching should be considered a field that is separate from both the field of Education and from the content area fields Teaching is a field which synthesizes content and method for classroom application All of the other major intellectual fields have a canon of works which practitioners can learn from and add to but Teaching does not The Connecting the Dots in World History A Teacher s Literacy Based Curriculum series changes this by showing how
