Homer's Iliad Katharina Wesselmann,2023-04-27 The renowned Basler Homer Kommentar of the Iliad edited by Anton Bierl and Joachim Latacz and originally published in German presents the latest developments in Homeric scholarship Through the English translation of this ground breaking reference work edited by S Douglas Olson its valuable findings are now made accessible to students and scholars worldwide

Raphael's Poetics David Rijser,2025-10-01 Raphael's Poetics applies strategies of interpretation implicit in antique poetry to the visual art of the Renaissance concentrating on Raphael's Roman works and their cultural context Until recently scholarly discussion

was dominated by the application of Renaissance literary theory to visual arts obscuring the fact that Renaissance humanists who contributed to literary theory were in the first instance and almost without exception poets rather than theorists To counter the tendency towards theory the hermeneutic rules implicit in their poetry and thus the poetry itself is brought to the fore by this study as a hermeneutical tool By focusing on the interaction between the work of art and its public Rijser offers innovative interpretations of canonical works and important insights into the cultural history of the early modern period Reconstructing a visual grammar and defining the context in which Raphael's art functioned this study illuminates contemporary significances that have since been lost

Prolegomena Stuart Douglas Olson, 2015-07-24 The Prolegomena provide an introduction to the Basler Iliad commentary The volume includes essays on the history of Iliad commentaries and the text formulaic language and the oral tradition grammar meter characters plot and chronological structure narrative technique and developments in Homeric criticism as well as an Index of Mycenaean words with brief explanations

Desire in the Iliad Rachel H. Lesser, 2022 The first study to examine desire in the Iliad in a comprehensive way explaining its relationship to the epic's narrative structure and audience reception The author offers a new reading of the poem that shows how the characters' desires especially those of mortal hero Achilles and divine king Zeus motivate plot and engage the audience

Authority and History Juliana Bastos Marques, Federico Santangelo, 2022-12-15 This book examines authority in discourse from ancient to modern historians while also presenting instances of current subversions of the classical rhetorical ethos Ancient rhetoric set out the rules of authority in discourse and directly affected the claims of Greek and Roman historians to truth These working principles were consolidated in modern tradition but not without modifications The contemporary world in its turn subverts in many new ways the weight of the author's claim to legitimacy and truth through the active role of the audiences How have the ancient claims to authority worked and changed from their own times to our post modern digital world Online uses and outreach displays of the classical past especially through social media have altered the balance of the authority traditionally bestowed upon the ancients demonstrating what the linguistic turn has shown the role of the reader is as important as that of the writer

The academy, 1884

Homer's Divine Audience Tobias Myers, 2019-06-27 The gods of Homer's Iliad have troubled readers for millennia with many features of their presentation seeming to defy satisfactory explanation Homer's Divine Audience presents and explores a new metaperformative approach to scenes of divine viewing counsel and intervention in the Iliad referencing the oral nature of the poem's original composition and transmission to cast the Olympian gods in part as an internal audience who follow the action from their privileged divine perspective much like the poet's own listeners Although critics have already often described the gods' activities in terms of attendance at a show and have suggested analogies to theatre and sports little has yet been done to investigate the particular strategies by which the poet

conveys the impression of gods attending a live staged event This volume s analysis of those strategies points to a metaperformative significance to the motif of divine viewing the poet is using the gods in part to model and thereby manipulate the ongoing dynamics of performance and live reception The gods like the external audience are capable of a variety of emotional responses to events at Troy notably pleasure and pity but also great aloofness By performing the speeches of the provocative infuriating yet ultimately obliging Zeus the poet at key moments both challenges his listeners to take a stake in the continuation of the performance and presents a sophisticated critique of possible responses to his poem
