Historical Methods in the Social Sciences John A. Hall, Joseph M. Bryant, 2005 Brings together seminal papers in historical methods one of the fundamental approaches in the social sciences The volumes provide readers with a solid grounding in the development of a relationship between history and the social sciences the classical questions raised by social time and historical evidence recent debates such as historiography and critiques of objectivity and legacies and transformations

Quantitative Narrative Analysis Roberto Franzosi, 2010 Quantitative Narrative Analysis focuses on the following issues 1 the fundamental features of narrative as a specific type of text genre with certain invariant linguistic properties 2 how the invariant properties of narrative can be used to structure narrative information in ways that basic qualitative information can then be analyzed quantitatively story grammars or Subject Action Object and respective modifiers such as Time and Space of Action 3 reliability and how the computer and linguistic framework of the approach greatly increase data reliability 4 data analysis the book does not focus on general problems of data analysis it will show how textual data can be analyzed with numbers

Varieties of Narrative Analysis James A. Holstein, Jaber F. Gubrium, 2011-08-05 Narrative research has become increasingly popular in the social sciences While no part of the process is easy researchers often struggle to make sense of data that can seem chaotic and without a discernable pattern This book shows how to analyze stories storytelling and stories in society bringing together a variety of approaches to both texts and narrative practice under one cover

Textbooks on Israel-Palestine Seyed Hadi Borhani, 2022-01-27 How is the Israel Palestine question narrated in Western academia What ideas dominate the key textbooks on the subject and what is presented as truth This book answers these critical questions It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine But academic support of Israel in the West has been a neglected issue with Western academic knowledge being regarded as impartial and objective This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel Palestine question

Rather knowledge has been biased misleading and dogmatic and Western college students are subscribing to factual histories based on theories at best if not fiction The book is the first empirical investigation able to document this partial reporting of history Seyed Hadi Borhani examines the most popular college level textbooks used to teach the history of the Israel Palestine in Western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge The book provides a historical map of how the Israel Palestine conflict is understood in the West The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in Western academia

Developing Grounded Theory Janice M. Morse, Barbara J. Bowers, Kathy Charmaz, Adele E. Clarke, Juliet Corbin, Caroline Jane Porr, Phyllis Noerager Stern, 2021-02-15 *Developing Grounded Theory The Second Generation Revisited* is a highly accessible description of the rapid development of grounded theories and the latest developments in grounded theory methods A succinct overview of the development of grounded theory is provided including the similarities and differences between Glaserian and Straussian grounded theory The method introduced by Schatzman and the development of Charmaz's constructivist grounded theory and Clarke's situational analysis are clearly presented The book is divided into seven sections each type of grounded theory is discussed by the developer or their student followed by a chapter describing a project that used that particular type of grounded theory Bookending these chapters is the first chapter which describes the development and landscape of grounded theory and a final chapter describing the challenges to the future of grounded theory This book is ideally suited for beginning students trying to come to grips with the field as well as more advanced researchers attempting to delineate the major types of grounded theory

Wilderness as Metaphor for God in the Hebrew Bible Robert Miller II OFS, 2021-09-22 The ancient Israelite authors of the Hebrew Bible were not philosophers so what they could not say about God in logical terms they expressed through metaphor and imagery To present God in His most impenetrable otherness the image they chose was the desert The desert was Ancient Israel's southern frontier an unknown region that was always elsewhere from that elsewhere God has come God came from the South Hab 3:3 God when you marched from the desert Ps 68:8 from his southland mountain slopes Deut 33:2 Robert Miller explores this imagery shedding light on what the biblical authors meant by associating God with deserts to the south of Israel and Judah Biblical authors knew of its climate flora and fauna and understood this magnificent desert landscape as a fascinating place of literary paradox This divine desert was far from lifeless its plants and animals were tenacious bizarre fierce even supernatural The spiritual importance of the desert in a biblical context begins with the physical elements whose impact cognitive science can elucidate Travellers and naturalists of the past two millennia have experienced this and other wildernesses and their testimonies provide a window into Israel's experience of the desert A prime focus is the existential experience encountered Confronting the desert's enigmatic wildness its melding of the known and unknown leads naturally to spiritual experience The book's panoramic view of biblical

spirituality of the desert is illustrated by the ways spiritual writers from Biblical Times to the Desert Fathers to German Mysticism have employed the images therefrom Revelation and renewal are just two of many themes Folklore of the Ancient Near East and indeed elsewhere that deals with the desert wilderness archetype has been explored via Jungian psychology Goethean Science enunciative linguistics and Hebrew philology These philosophies contribute to this exploration of the Hebrew Bible's desert metaphor for God
