Bello, 2020-08-19 Did Christ assume a fallen human nature What is not assumed is not healed So goes the Chalcedonian maxim articulated by Gregory of Nazianzus regarding the nature and extent of Christ's work in assuming a human nature But what is the nature of that assumption If Christ is to stand in solidarity with us must he have assumed not merely a human nature but specifically a fallen human nature In *Sinless Flesh: A Critique of Karl Barth's Fallen Christ* Rafael Bello argues against the assertion made by Karl Barth T F Torrance and those who follow them that Christ assumed a fallen nature Through retrieval of patristic medieval and Reformed orthodox theologians Bello argues that a proper understanding of human nature trinitarian inseparable operations and the habitual grace of union distinction leads to the conclusion that the assertion that Christ assumed a fallen human nature is at odds with faithful theological and historical understandings of the incarnation Readers interested in theological retrieval for issues in contemporary theology will find a faithful model and way forward for a thorny issue in modern dogmatics *Christian-Muslim Relations. Rodríguez, 2017-07-13 In recent years martyrdom and political violence have been conflated in the public imagination Rubén Rosario Rodríguez argues that martyr narratives deserve consideration as resources for resisting political violence in contemporary theological reflection Underlying the three Abrahamic monotheistic traditions is a shared belief that God requires liberation for the oppressed justice for the victims and most demanding of all love for the political enemy Christian Jewish and Muslim martyr narratives that condone political violence whether terrorist or state sponsored are examined

alongside each religion's canon in order to evaluate how central or marginalized these discourses are within their respective traditions. Primarily a work of Christian theology in conversation with Judaism and Islam, this book aims to model religious pluralism and cooperation by retrieving distinctly Christian sources that nurture tolerance and facilitate coexistence while respecting religious difference.

Atheism and the Christian Faith is an anthology of the proceedings from a conference of the same name which convened at Concordia University of Edmonton in May 2016. This combination of topics and perspectives makes the book totally unique. There are arguments for and against theism. The foreword to the book is by Professor Richard Swinburne, Professor Emeritus of Philosophy at Oxford University, who contributes two chapters to the book: "Why Believe That There is a God" and "Why God Allows Suffering." The book includes a chapter from renowned astrophysicist and former student of Stephen Hawking, Professor Dr. Don Page from the University of Alberta, "On the Optimal Argument for the Existence of God." Atheism and the Christian Faith advances arguments around serious philosophical issues of direct relevance to contemporary society. It will be of interest to a broad range of scholars in philosophy, theology, and epistemology.

Engaging Theology Ben C. Blackwell, R.L. Hatchett, 2019-10-29. Theology today is faced with increasing amounts of religious and theological pluralism. What is distinctive about Christian theology? Why do these ideas matter? And the biggest question of all: Who cares? Key aspects of orthodox theology are seen as speculative and irrelevant to authentic Christianity and to personal spirituality. While not succumbing to the pragmatism of the age, this book shows that key elements of Christian theology ground an integrated worldview and are essential for spiritual formation. Engaging Theology is an introductory theology textbook that grounds a treatment of standard systematic topics in the wider context of life and practice and shows the relevance of each doctrine to the church. The book treats the essential doctrines of Christian orthodoxy by following the pattern of story, doctrinal exposition, theological relevance, and spiritual relevance. Each chapter begins with a brief and engaging account of the historical situation out of which the doctrine arose or where it played an essential role in the development of the church, showing students that orthodox theology matters and introducing them to most of the key theologians in the history of the church. Doctrinal Exposition: The heart of the chapter is exposition of key elements of the doctrine, highlighting core and debated elements while clarifying heterodox perspectives. Integrated with the narrative account, this section also models the contextualized nature of theology. Each chapter includes biblical, historical, and contemporary views on the issue and notes key figures in the debates and their influence. Theological Relevance: While theological relevance is clear throughout each chapter, this section highlights relevance to the modern setting and concerns, including interaction with heterodox and non-Christian faiths. It identifies current theological problems besetting the church.

and shows how a proper understanding and integration of orthodox theology addresses these problems It also points to other problems the church is facing for interesting discussion starters Spiritual Relevance Since orthodox theology has a direct influence on one's own spiritual formation and practice each chapter concludes with practical encouragements and discussions about how each doctrine can be integrated in one's personal and corporate life Engaging Theology is ideal for students and everyday people living in a post Christian era to help them seriously engage with the Christian faith

Catholic Theology Tracey Rowland, 2017-01-26 Rowland showcases here the dominant contemporary approaches to doing Catholic theology Chapter 1 offers a summary of the two International Theological Commission ITC documents on the discipline of Catholic theology These documents set out the general principles which should govern any approach to Catholic theology at least according to the ITC The subsequent chapters each focus on one of four different approaches frequently found in contemporary Catholic academies the approach of Thomists members of the *Communio* milieu members of the *Concilium* milieu and promoters of different varieties of Liberation Theology Rowland's work is pitched at the level of first time students of theology who are trying to make sense of the methodological choices which undergird the different approaches to Catholic theology Rowland concludes with four appendices a list of all Doctors of the Church a list of all encyclicals since the 19th century a list of the documents of the Second Vatican Council and a list of definitions of the various Christological heresies which were the subject of the debates of the early Church Councils These appendices will provide useful reference tables for young scholars including seminarians
