Wintz, 1996 Twenty nine collected essays represent a critical history of Shakespeare's play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate

Critical Nostalgia and Caribbean Migration J. A. Brown-Rose, 2009 The literature of Caribbean writers living in the United States embodies a duality an awareness of multiple sites of identity as well as conflict of place and space Easily grouped with African Americans Caribbean peoples and other immigrants from the African Diaspora make up the quasi political face of Black America But as immigrants from a former colonized community Caribbean writers carry with them a historical experience that differentiates them from African Americans they stand on the border of two spaces What impact does this duality have on Caribbean literature written by writers who have left the home space for American soil As many writers have suggested Caribbean writers are continuously looking back to home in an attempt to understand who they are and where they belong This book postulates that it is through nostalgia or an attempt to renegotiate the past that the Caribbean writer attempts to reconcile his/her duality Nostalgia can be directly linked to an understanding of and by extension a critique of American social and political practices as well as an appraisal of colonial influences in the Caribbean Thus the discourse of Caribbean writers living in America operates on different levels Although Caribbean migratory writers are continuously looking back to home this nostalgia is tied to a reevaluation of American and island consciousness The texts discussed in this work are in effect engaged in critical analysis the texts perform criticism of the home country and that man's country the United States

The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic

engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations

more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial

revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the

background for his analysis by tracing the major inventions and innovations that have transformed society since ancient

Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of

new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity

The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

Harlem Shadows Claude McKay, 2021-05-28 *Harlem Shadows* 1922 is a poetry collection by Claude McKay Published at the height of the Harlem Renaissance *Harlem Shadows* earned praise from legendary poet and political activist Max Eastman for its depictions of urban life and the technical mastery of its author As a committed leftist McKay who grew up in Jamaica captures the life of Harlem from a realist's point of view lamenting the poverty of its African American community while celebrating their resilience and cultural achievement

In *The White City* McKay observes New York its poles and spires and towers vapor kissed and fortified port through which the great ships pass Filled him with a hatred of the inhuman scene of industry and power forced to muse his life long hate he observes the transformative quality of focused anger My being would be a skeleton a shell If this dark Passion that fills my every mood And makes my heaven in the white world's hell Did not forever feed me vital blood Rather than fall into despair he channels his hatred into a revolutionary spirit allowing him to stand tall within the mighty city

In *The Tropics* in New York he walks past a window filled with Bananas ripe and green and ginger root Cocoa in pods and alligator pears a feast of fresh tropical fruit that brings him back however briefly to his island home of Jamaica Recording his nostalgic response McKay captures his personal experience as an immigrant in America My eyes grew dim and I could no more gaze A wave of longing through my body swept And hungry for the old familiar ways I turned aside and bowed my head and wept With a beautifully designed cover and professionally typeset manuscript this edition of Claude McKay's *Harlem Shadows* is a classic of Jamaican literature reimagined for modern readers

Inventing the Egghead Aaron Lecklider, 2013-03-05 Throughout the twentieth

century pop songs magazine articles plays posters and novels in the United States represented intelligence alternately as empowering or threatening In *Inventing the Egghead* cultural historian Aaron Lecklider offers a sharp entertaining narrative of these sources to reveal how Americans who were not part of the traditional intellectual class negotiated the complicated politics of intelligence within an accelerating mass culture Central to the book is the concept of brainpower a term used by Lecklider to capture the ways in which journalists writers artists and others invoked intelligence to embolden the majority of Americans who did not have access to institutions of higher learning Expressions of brainpower Lecklider argues challenged the deeply embedded assumptions in society that intellectual capacity was the province of an educated elite and that the working class was unreservedly anti intellectual Amid changes in work leisure and domestic life brainpower became a means for social transformation in the modern United States The concept thus provides an exciting vantage point from which to make fresh assessments of ongoing debates over intelligence and access to quality education Expressions of brainpower in the twentieth century engendered an uncomfortable paradox they diminished the value of intellectuals the hapless egghead for example while establishing claims to intellectual authority among ordinary women and men including labor activists women workers and African Americans Reading across historical literary and visual media Lecklider mines popular culture as an arena where the brainpower of ordinary people was commonly invoked and frequently contested

Harlemworld John L. Jackson Jr., 2010-05-01 Harlem is one of the most famous neighborhoods in the world a historic symbol of both black cultural achievement and of the rigid boundaries separating the rich from the poor But as this book shows us Harlem is far more culturally and economically diverse than its caricature suggests through extensive fieldwork and interviews John L. Jackson reveals a variety of social networks and class stratifications and explores how African Americans interpret and perform different class identities in their everyday behavior

Black Empire Michelle Ann Stephens, 2005-07-18 Explores the writings of Marcus Garvey Claude McKay and C L R James and argues that these black transnationals articulated a novel conception of black identity that reconfigures the meaning of American nationality

Black Literature Criticism: Marshall-Young, 1992

New Black Renaissance Manning Marable, Adina Popescu, Khary Jones, Patricia Lespinasse, 2015-12-03 Against a backdrop of multiculturalism and Afrocentricity in the intellectual traditions of African American studies this book sets new standards and directions for the future It is the first book to systematically address the many themes that have changed the political and social landscape for African Americans Among these changes are new transnational processes of globalization the devastating impact of neoliberal public policies upon urban minority communities increasing imprisonment and attendant loss of voting rights especially among black males the surging of Hispanic population and widening class differences as deindustrialization crack cocaine and gentrification entered urban communities Marable and a cast of influential contributors suggest that a new beginning is needed for African American scholarship They explain why Black Studies needs to break its conceptual and thematic limitations exploring blackness in new ways and in different

geographic sites They outline the major intersectionalities that should shape a new Black Studies the complex relationships between race gender sexuality class and youth They argue that African American Studies scholarship must help shape and redirect public policies that affect black communities working with government foundations and other private institutions on such issues as housing health care and criminal justice Polk's Medical Register and Directory of the United States and Canada ,1908 **Health and the Modern Home** Mark Jackson,2008-02-07 Health and the Modern Home explores shifting and contentious debates about the impact of the domestic environment on health in the modern period Drawing on recent scholarship contributors expose the socio political context in which the physical and emotional environment of the modern home and family became implicated in the maintenance of health and in the aetiology and pathogenesis of diverse psychological and physical conditions In addition they critically analyze the manner in which the expression and articulation of medical concerns about the domestic environment served to legitimate particular political and ideological positions
