Handbook of Management Accounting Research Christopher S. Chapman, Anthony G. Hopwood, Michael D. Shields, 2011-09-14 Volume two of the Handbooks of Management Accounting Research consists of two groups of chapters. The first draw together research that has focussed on particular management accounting practices. The second set synthesise contributions to the literature that have been focussed within particular organisational contexts. Volume two concludes with a review of research on how management accounting practice and research varies around the world. Special pricing available if purchased as a set with Volume 1. Documents the scholarly management accounting literature. Publishing both in print and online through Science Direct International in scope.

Handbook of the Economics of Finance SET: Volumes 2A & 2B George M. Constantinides, Milton Harris, Rene M. Stulz, 2013-01-21 This two volume set of 23 articles authoritatively describes recent scholarship in corporate finance and asset pricing. Volume 1 concentrates on corporate finance encompassing topics such as financial innovation and securitization, dynamic security design and family firms. Volume 2 focuses on asset pricing with articles on market liquidity, credit derivatives and asset pricing theory among others. Both volumes present scholarship about the 2008 financial crisis in contexts that highlight both continuity and divergence in research. For those who seek insightful perspectives and important details they demonstrate how corporate finance studies have interpreted recent events and incorporated their lessons. Covers core and newly developing fields. Explains how the 2008 financial crises affected theoretical and empirical research. Exposes readers to a wide range of subjects described and analyzed by the best scholars.

The Handbook of Globalisation, Third Edition Jonathan Michie, 2019 The past 30 years are often depicted as an era of globalisation and even more so with the recent rise of global giants such as Google and Amazon. This updated and revised edition of The Handbook of Globalisation offers novel insights into the rapid changes our world is facing and how best we can handle them.

The Handbook of Global Shadow Banking, Volume I Luc Nijs, 2020-06-30 This global handbook provides an up to date and comprehensive overview of shadow banking or market based finance as it has been recently coined. Engaging in financial intermediary services outside of normal regulatory parameters, the shadow banking sector was arguably a critical factor in causing the 2007-2009 financial crisis. This volume focuses specifically on shadow banking activities, risk policy and regulatory issues. It evaluates the nexus between policy design and regulatory output around the world, paying attention to the concept of risk in all its dimensions: the legal, financial, market, economic and monetary perspectives. Particular attention is given to spillover risk, contagion risk and systemic risk and their positioning and relevance in shadow banking activities. Newly introduced and incoming policies are evaluated in detail as well as how risk is managed, observed and assessed and how new regulation can potentially create new sources of risk. Volume I concludes with analysis of what will and still needs to happen in the event of another crisis. Proposing innovative suggestions for improvement including a novel Pigovian tax to tame financial and systemic risks, this handbook is a

must read for professionals and policy makers within the banking sector as well as those researching economics and finance
