REVIEWS I really enjoyed reading your new book and would heartily recommend it It is a great way to learn the art without spending hours ploughing through the many books out there on the subject Richard Osterlind Julian is a wonderful teacher I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck And I quickly became bored With Julian's system once the info is in your head it isn't easily

leaving And I found the whole process fun Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going Bill Cushman I have finished Julian s book on Graphology and highly recommend it Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short sweet and can be done on the back of a business card I like to explain how I am getting my information as I am doing the reading and Julian s system is perfectly suited for this In fact it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn t hit the mark so you really cannot lose Anyone that is interested in Graphology should definitely pick up this book John Lumber As a long time graphologist I ve perused Julian s manuscript and can attest that it is exactly as described He s taken some of the real meat of the subject and found a way to explain it clearly and simply AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember And therefore easy to explain to others He s done a lot of hard mental work so that you won t have to Well worth the price tag for those who wish to use it Brane OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning Graphology The Art Of Handwriting Analysis Speed Learning Cartomancy A Playing Card Reading Primer Speed Learning Palmistry Palm Readings In Your Own Words Speed Learning Numerology Numbers Past And Present With The Lo Shu Square Speed Learning Star Signs **Handwriting Analysis 101**

Toolkit Peter West,2004 Learn to read your emotions and desires and those of people you deal with every day A graphology

expert instructs readers in the basics of handwriting analysis. He shows how to employ a step by step method that gives a reliable description of a subject based on a sample of his or her handwriting. Just as our voices reveal much about our emotions, our motives and our needs, so too does our handwriting present a psychological profile to the analyst who knows how to decipher it. A simple but clever set of tools devised by the author is enclosed with this book. Its components are: A protractor to measure angles of handwriting slant and gauge emotions at the time of writing as well as to interpret enduring personality traits. A gauge for estimating the zones into which each part of a handwritten letter falls. A rule for measuring any letter's size and spacing. All components in the tool kit are printed on sturdy transparent acetate to be used as an overlay on handwriting samples. An opening chapter presents an overview of handwriting analysis, discussing handwriting pressure, size, spacing, slant, and the qualities these features indicate. Subsequent chapters discuss what handwriting reveals about a subject's public life and inner life. A final chapter offers an at a glance guide to decoding psychological meanings underlying the various ways in which a subject shapes each letter of the alphabet. This fascinating book provides a key to self understanding and the understanding of others. More than 250 instructive color illustrations.

Graphology-Secret of Yourself Nirja Singh, 2019-06-11 Graphology is the study and analysis of the patterns of handwriting to develop a perception of the writer's personality and psychological state at the time of writing. Human nature is difficult to comprehend and may take years before an understanding of the behavioral traits, motivations, and intentions of an individual can be closely understood. However, handwriting analysis allows an insight into these aspects of human nature. By examining a handwriting sample, a complete analysis of the person's character and personality can be developed. This book is a compilation of chapters that discuss about human traits, fears, and defences, strengths and weaknesses, and is focused on an understanding of human dynamics through the medium of handwriting analysis. It is meant to be a reference text for individuals who are keen to know about themselves. Extensive research was performed for writing this book, and the images, quotations, etc. used throughout the book have been derived from various books in Graphology and from different online resources, and the same has been mentioned in the references section.
