Jennifer Laffan,2024-11-07 Concern in the Australian community about the use of pesticides has been growing steadily over recent years This concern centres on environmental and health issues and inadvertent damage that can be done to off target species This book is for people interested in all aspects of chemical application using both handheld and powered application equipment to control pests in a wide range of situations It is a practical guide which outlines a range of pests the damage they can cause resulting in loss to production and environmental degradation options for control and risks associated with control methods Chemicals are a necessary component of most agricultural systems and having the correct information to increase efficiency whilst reducing risks to both workers the environment and off target damage is essential for anyone working in the industry Information found in this book will help in decision making and chemical application planning to reduce costs and increase productivity whilst meeting legislative requirements of chemical application storage and transport

Weed Control Andrew Price,2012-02-29 Crop loss due to weeds has challenged agricultural managers since man began to develop the first farming systems In the past century however much progress has been made to reduce weed interference in crop settings through effective yet mostly non sustainable weed control strategies With the commercial introduction of herbicides during the mid 1900 s advancements in chemical weed control tactics have provided efficient suppression of a broad range of weed species for most agricultural practices Currently with the necessity to design effective sustainable weed management systems research has been pushing new frontiers on investigating integrated weed management options including chemical mechanical as well as cultural practices Author contributions to Weed Science present significant topics of research that examine a number of options that can be utilized to develop successful and sustainable weed management systems for many areas of crop production Directory & Products Guide ,2004 *Precision agriculture '09* E.J. van Henten,D. Goense,C. Lokhorst,2023-09-04 Precision Agriculture is becoming ever more relevant as the agricultural industry struggles to come to terms with the environment economics traceability vehicle guidance and crop management Whilst some benefits have proved elusive others contribute positively to today s agriculture Research continues to be necessary and needs to be reported and disseminated to a wide audience These proceedings contain the reviewed papers from the 7th European Conference on Precision Agriculture The papers reflect the wide range of disciplines that impinge upon precision agriculture including remote sensing plant disease and weed detection yield monitoring soil sensing geo statistics and path planning regional and crop modelling cooperation and guidance of robots precision application ICT in precision agriculture future farming and European relevance for precision agriculture The broad range of research topics reported is a valuable resource for researchers advisors teachers and professionals in agriculture Also note that the reviewed papers from the 4th European Conference on Precision Livestock Farming are presented in a companion publication **British Power Farmer and**
