Like Hidden Fire The Plot To Bring Down The British Empire:

Like Hidden Fire Peter Hopkirk, 1994 A GRIPPING STORY OF IMPERIAL AMBITION SWASHBUCKLING ADVENTURE AND THE KAISER'S OWN JIHAD An acclaimed historian tells for the first time the full story of the conspiracy between the Germans and the Turks to unleash a Muslim holy war against the British in India and the Russians in the Caucasus Drawing on recently opened intelligence files and rare personal accounts Peter Hopkirk skillfully reconstructs the Kaiser's bold plan and describes the exploits of the secret agents on both sides disguised variously as archaeologists traders and circus performers as they sought to foment or foil the uprising and determine the outcome of World War I

Exile and the Nation Afshin Marashi, 2020-06-08 Groundbreaking There is little doubt this book will become foundational reading for any student of Iranian modernity and nationalism Diaspora A Journal of Transnational Studies In the aftermath of the seventh century Islamic conquest of Iran Zoroastrians departed for India Known as the Parsis they slowly lost contact with their ancestral land until the nineteenth century when steam powered sea travel the increased circulation of Zoroastrian themed books and the philanthropic efforts of Parsi benefactors sparked a new era of interaction between the two groups Tracing the cultural and intellectual exchange between Iranian nationalists and the Parsi community during the late nineteenth and early twentieth centuries Exile and the Nation shows how this interchange led to the collective reimagining of Parsi and Iranian national identity and the influence of antiquity on modern Iranian nationalism which previously rested solely on European forms of thought Iranian nationalism Afshin Marashi argues was also the byproduct of the complex history resulting from the demise of the early modern Persianate cultural system as well as one of the many cultural heterodoxies produced within the Indian Ocean world Crossing the boundaries of numerous fields of study this book reframes Iranian nationalism within the context of the connected transnational and global history of the modern era Well written clearly argued Transnational history at its best Middle East Journal Marashi's engaging biographies highlight the significance of Parsi Zoroastrians to the related restoration of Iranian authenticity Journal of Asian Studies A richly textured study Peyk Magazine Exile and the Nation is as important a contribution to colonial Indian history as it is to understanding the origins of the modern Middle East Los Angeles Review of Books

The Creation of Iraq, 1914-1921 Reeva Spector Simon, Eleanor H. Tejirian, 2004-12-08 Leading scholars consider Iraq's history and strategic importance from the vantage point of its residents neighbors Iran Turkey and Kurdistan and the Great Powers

Redrawing the Middle East Michael D. Berdine, 2018-03-30 The Sykes Picot Agreement was one of the defining moments in the history of the modern Middle East Yet its co creator Sir Mark Sykes had far more involvement in British Middle East strategy during World War I than the Agreement for which he is now most remembered Between 1915 and 1916 Sykes was Lord Kitchener's agent at home and abroad operating out of the War Office until the war secretary's death at sea in 1916 Following that from 1916 to 1919 he worked at the Imperial War Cabinet the War Cabinet Secretariat and finally as an advisor to the Foreign Office The full extent of Sykes's work and influence has

previously not been told Moreover the general impression given of him is at variance with the facts Sykes led the negotiations with the Zionist leadership in the formulation of the Balfour Declaration which he helped to write and promoted their cause to achieve what he sought for a pro British post war Middle East peace settlement although he was not himself a Zionist Likewise despite claims he championed the Arab cause there is little proof of this other than general rhetoric mainly for public consumption On the contrary there is much evidence he routinely exhibited a complete lack of empathy with the Arabs In this book Michael Berdine examines the life of this impulsive and headstrong young British aristocrat who helped formulate many of Britain's policies in the Middle East that are responsible for much of the instability that has affected the region ever since

Modern Afghanistan Amin Saikal, 2004-08-27 Afghanistan's recent history is a sad one Soviet invasion in 1979 Pakistan backed internal conflict in the 1980s the Taliban regime and then the US invasion and the multi national occupation after the events of 11 September 2001 Why does Afghanistan remain so vulnerable to domestic instability foreign intervention and ideological extremism In reconstructing the tempestuous narrative of modern Afghanistan Amin Saikal provides a sweeping new understanding of its troubled past and present He identifies the country's inability to develop stable political structures as stemming from the inter dynastic rivalry complicated by polygamy that scarred successive royal families from the end of the eighteenth century until the pro Soviet Communist coup of April 1978 all exacerbated by foreign interventions feeding on fragile domestic structures and the rise and fall of different ideological streams Here for the first time is an up to date analysis of the era of the Taliban's rule the effects of US domination in the country and attempts to negotiate a US withdrawal including talks about talks with the Taliban themselves This book which sets the crisis of Afghanistan in the context of the country's modern history and social structures makes a major and highly original contribution towards a better and more nuanced understanding of this ill fated land It is the definitive study of Afghanistan and its troubles in national regional and international contexts from 1747 to the present day

Faustian Bargain Ian Ona Johnson, 2021-05-28 Offers the full story of a fateful alliance between past and future mortal enemies long preceding the well known Ribbentrop Molotov Pact whose dimensions were kept secret from the outside world and yet which set the stage for World War Two and its outcome

Conflict, Conquest, and Conversion Eleanor Tejirian, Reeva Spector Simon, 2014-10-07 Conflict Conquest and Conversion surveys two thousand years of the Christian missionary enterprise in the Middle East within the context of the region's political evolution Its broad rich narrative follows Christian missions as they interacted with imperial powers and as the momentum of religious change shifted from Christianity to Islam and back adding new dimensions to the history of the region and the nature of the relationship between the Middle East and the West Historians and political scientists increasingly recognize the importance of integrating religion into political analysis and this volume using long neglected sources uniquely advances this effort It surveys Christian missions from the earliest days of Christianity to the present paying particular attention to the role of Christian missions both Protestant and Catholic in shaping the

political and economic imperialism of the nineteenth and twentieth centuries Eleanor H Tejirian and Reeva Spector Simon delineate the ongoing tensions between conversion and the focus on witness and good works within the missionary movement which contributed to the development and spread of nongovernmental organizations Through its conscientious systematic study this volume offers an unparalleled encounter with the social political and economic consequences of such trends

Conflict Management and "whole of Government", 2012 Today America faces security challenges that are exceedingly dynamic and complex in part because of the ever changing mix and number of actors involved and the pace with which the strategic and operational environments change To meet these new challenges more effectively the Obama administration advocated strengthening civilian instruments of national power and enhancing America's whole of government WOG capabilities Although the need for comprehensive integration and

coordination of civilian and military governmental and nongovernmental national and international capabilities to improve efficiency and effectiveness of post conflict stabilization and peacebuilding efforts is widely recognized Washington has been criticized for its attempts at creating WOG responses to international crises and conflicts for overcommitment of resources lack of sufficient funding and personnel competition between agencies ambiguous mission objectives and undermining the military's primary purpose of defending the national interest Presenting the results of an international Symposium held at Kennesaw State University in February 2011 this volume traces the genesis of WOG critically examines current WOG practices and draws lessons from the operational contexts of Iraq and Afghanistan The first part of the book describes the overall global security context within which peacebuilding and stability operations are currently conducted examines the merits of WOG approaches and discusses their efficacy for responding to a range of emerging threats The second part addresses some of the practical challenges of implementing WOG approaches to international conflict management and specifically to U S intervention in fragile states The third and final part examines WOG efforts in the field and draws lessons learned from operational experiences in Afghanistan and Iraq to potential future interventions Publisher's website

Conflict Management and "Whole of Government": Useful Tools for U.S. National Security Strategy (Enlarged Edition)

Volker C. Franke, Robert H. Dorff, Strategic Studies Institute, 2013-05-20 Today America faces security challenges that are exceedingly dynamic and complex in part because of the ever changing mix and number of actors involved and the pace with which the strategic and operational environments change To meet these new challenges more effectively the Obama administration advocated strengthening civilian instruments of national power and enhancing America's whole of government WOG capabilities Although the need for comprehensive integration and coordination of civilian and military governmental and nongovernmental national and international capabilities to improve efficiency and effectiveness of post conflict stabilization and peacebuilding efforts is widely recognized Washington has been criticized for its attempts at creating WOG responses to international crises and conflicts for overcommitment of resources lack of sufficient funding and personnel competition between agencies ambiguous mission objectives *Transcending Borders* Huub de Jonge, Nico Kaptein, 2021-10-01 Arab immigrants to Southeast Asia and their descendants have not received much attention in comparison with immigrants from other parts of the world such as the Chinese Indians and Europeans Numerically the Arabs as they are called up till now have always paled into insignificance besides other foreign minorities in particular in the colonial period Even today their presence is hardly noticed Yet they have exercised a great influence on economic political social and religious developments in the region for centuries This book contains ten articles from the perspective of various disciplines history sociology anthropology and Islamology These essays discuss the interrelationships within the various Arab communities as well as between these communities and society at large in the fields of politics trade and Islam *Space Is Power* John Hickman, 2016-02-29 From Russia's annexation of Crimea to China's nine dash line in the South China Sea it is

clear that territory is as important in international politics now as it has ever been Yet too few contemporary foreign policy makers journalists and scholars are able to speak coherently about territorial issues Space Is Power The Seven Rules of Territory challenges the intellectual conceits that human territoriality is merely a social construct that territorial sovereignty is atavistic that territorial annexation is always irrational and that territorial disputes are provoked by foreign policy makers who seek to divert public attention from more important issues Space Is Power argues that territoriality is too basic to human nature to be denied and territorial sovereignty is too important to the survival of the modern state to be ignored The truths about territory are captured in seven rules some of which are intuitive while others contradict conventional wisdom Rather than anticipating the transcendence of the territorial states this book argues that the unmistakable direction of international politics is toward encompassing ever more physical space as the territory of states

The Power Triangle Hazem Kandil, 2016 Iran Egypt and Turkey all experienced remarkably similar coup installed regimes in the middle of the twentieth century and shared comparable state building ambitions Despite these similarities each followed a different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt metamorphosed into a police state What accounts for this divergence In The Power Triangle Hazem Kandil attributes the different outcomes to the power struggle between the political military and security components of each regime Following a coup officers immediately divide their labor one group runs government another supervises the military and the third handles security Their interests initially overlap but begin to vary as each group becomes identified with its own institution The politicians wish to remain in power indefinitely but need the support of the custodians of violence military officers prefer to withdraw from politics after implementing the needed reforms since their prerogatives are usually guaranteed regardless of regime type and politicization corrupts the corps and security men strive to consolidate authoritarianism in order to maintain the inflated privileges they have acquired during the emergency period following the coup Driven by conflicting agendas the three partners struggle to control the regime Through comparative historical analysis Kandil demonstrates that the new regime is shaped and reshaped through the recurrent clashes and changing alliances between the team of rivals in this power triangle Bringing realism into domestic politics The Power Triangle demonstrates that we cannot gain a clear understanding of pivotal events in Iran Egypt and Turkey without a firm grasp of the balance of power within the ruling bloc of each country

Lone Wolf and Autonomous Cell Terrorism Jeffrey Kaplan, Heléne Lööw, Leena Malkki, 2017-10-02 President Obama has declared that the greatest terrorist threat which America faces is attacks by lone wolf terrorists This volume expands the lone wolf rubric to include autonomous cells small groups of terrorists who cooperate but operate independently The challenge presented by lone wolves and autonomous cells unlike the threat emanating from established terrorist groups like Al Qaeda has proven intractable because of the difficulty of gathering intelligence on these actors or effectively countering their actions Lone wolves operate under the radar staging deadly attacks such as that at the Boston

Marathon and the 2011 attacks in Norway This volume includes Theory and Policy Studies individual case studies and the technological impacts of chemical biological and nuclear weapons as well as the impact of social media in the process of recruitment and radicalization This book was originally published as a special issue of Terrorism Political Violence **The Mesopotamia Mess (Paperback)** Jack Bernstein,2008 The British invaded Mesopotamia now called Iraq in 1914 to protect their oil interests and they remained until 1958 Following are some quotes from the book The British cobbled three disparate vilayets Basra Baghdad and Mosul together to take full advantage of Iraq s strategic and economic potential To ensure this contrived nation remained intact and continued to do its bidding the British installed a ruler they could influence formulated a national level governmental structure to ensure its dominance and established a security apparatus dependent on its support Mesopotamia is inhabited solely by Arab tribes and the Arabs are all Mohammedans The Mohammedans of the world are divided into two main sects by irreconcilable differences of religious opinion sects which in Mesopotamia have indulged in innumerable fearful contests for supremacy all of which have tended to sink the country further and further into moral ruin and material exhaustion Parliament seriously discussed evacuating Iraq and Sir Percy Cox High Commissioner in Iraq argued that British policy in Iraq was working would bear dividends great enough to justify its continuance and that if prematurely curtailed the result would be disastrous He also stated that a withdrawal would lead inevitably to anarchy The very first British action upon entering Basra was to establish public order in the city Looters had sacked the city British and Indian military police were patrolling the streets within hours of the British entry into Basra General Nixon stated that the troops he had with him were sufficient to enable him to inflict decisive defeat upon the Turks and to seize Baghdad but that in order to hold the city he would require reinforcements Ultimately Asquith s government failed to provide its forces in Iraq with the strategic guidance manpower and material means to achieve victory **Armed Struggle** Aman Choudhary, Indian Freedom Struggle Alternative History **Radical Religion and Violence** Jeffrey Kaplan,2015-11-19 Jeffrey Kaplan has been one of the most influential scholars of new religious movements extremism and terrorism His pioneering use of interpretive fieldwork among radical and violent subcultures opened up new fields of scholarship and vastly increased our understanding of the beliefs and activities of extremists This collection features many of his seminal contributions to the field alongside several new pieces which place his work within the context of the latest research developments Combining discussion of the methodological issues alongside a broad array of case studies this will be essential reading for all students and scholars of extremism religion and politics and terrorism
