David Pogue, 2006-12-27 Windows Vista is Microsoft's most important software release in more than a decade. It offers users an abundance of new and upgraded features that were more than five years in the making: a gorgeous glass-like visual overhaul, superior searching and organization tools, a multimedia and collaboration suite, and above all, a massive top-to-bottom security shield overhaul. There's scarcely a single feature of the older versions of Windows that hasn't been tweaked, overhauled, or replaced entirely. But when users first encounter this beautiful new operating system, there's gonna be a whole lotta head scratchin' starting with trying to figure out which of the five versions of Vista is installed on the PC: Home, Premium, Business, Enterprise, Ultimate. Thankfully, Windows Vista: The Missing Manual offers coverage of all five versions. Like its predecessors, this book from New York Times columnist, bestselling author, and Missing Manuals creator David Pogue illuminates its subject with technical insight, plenty of wit, and hardnosed objectivity for beginners, veteran standalone PC users, and those who know their way around a network. Readers will learn how to navigate Vista's elegant new desktop, locate anything on your hard drive quickly with the fast, powerful, and fully integrated search function, use the Media Center to record TV and radio, present photos, play music, and record any of the above to DVD, chat, videoconference, and surf the Web with the vastly improved Internet Explorer 7 tabbed browser, build a network for file sharing, set up workgroups, and connect from the road. Protect your PC and network with Vista's beefed-up security. And much more. This jargon-free guide explains Vista's features clearly and thoroughly, revealing which work well and which don't. It's the book that should have been in the box.      **Manual for Home Networking Windows XP and Vista** Dorothy Raymond, 2008      **PC Mag**, 2003-06-30 PCMag.com is a leading authority on technology, delivering Labs-based independent reviews of the latest products and services.
