*The Adobe Photoshop CC Book for Digital Photographers* Scott Kelby, 2014-11-13 Annotation: Updated for all the newest features of the 2014 release of Adobe Photoshop CC, the approach of this book has broken new ground by doing something for digital photographers that's rare: it cuts through the bull and shows readers exactly how to do it. It's not a bunch of theory; it doesn't challenge readers to come up with their own settings or figure it out on their own. Instead, it shows them step-by-step the exact techniques used by today's cutting-edge digital photographers and retouchers, and it does something that virtually no other Photoshop book has ever done: it tells you flat out which settings to use when to use them and why.

*Creating HDR Photos* Harold Davis, 2012-07-24 Since the days of the first photographs, artists have used various techniques to extend the range of lights and darks in their photos. Photographic masters such as Ansel Adams

and Edward Weston spent countless hours burning and dodging their prints to create images with extended dynamic range. With the advent of digital photography, new horizons in extending dynamic range are possible. HDR techniques now make it easy to extend the dynamic range of an image well beyond the capability of the human eye. In *Creating HDR Photos*, bestselling author Harold Davis covers the complete HDR workflow from choosing the subjects that work best for HDR through processing RAW files to unlock the dynamic power of HDR. You'll learn how to photograph multiple exposures and blend them into a single HDR image using various software programs. Best of all, you will find out how to control the style of your HDR images from subtle to hyper-real using a range of photographic and post-processing techniques. Packed with stunning image examples, *Creating HDR Photos* brings this essential digital technique within every photographer's grasp.

Written by experts from both academia and industry, it is structured using the ACM Computing Classification System (CCS), first published in 1988 but most recently updated in 2012.
