Guiana and the Shadows of Empire Joshua R. Hyles,2013-12-04 This book is a history of the three Guianas now known as Guyana Suriname and French Guiana Though histories of each of the countries exist this is the first work in a century to consider the three countries as a group and thus the first to present the history of all three as a comparative and overarching study Special emphasis has been given to the story of how each colony was administered by Britain the Netherlands and France respectively and how these differing colonial administrative policies have given rise to three vastly different cultures Because the geographical area of the Guianas is relatively small the indigenous population at the time of contact was relatively uniform across the area and the external pressures on the three colonies over their histories exhibited significant similarities the book presents the Guianas as an ideal laboratory in which to study the effects of imperialism and cultural assimilation practices The book also briefly considers the present political and cultural status of the three polities and makes some projections about their possible futures In all the book presents a complete history from prehistory until the present day covering the entirety of the Guianas region relating a colorful history from a little studied corner of the world

attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography

Festival, Culture, and Identity in Lübeck Erika L. Briesacher, 2022-11-28 In this study Erika L Briesacher argues that festivals in Lübeck Germany spanning 1920 to 1960 demonstrate interlocking economic social and cultural factors that contribute to local national and international identity formation Focusing on institutional records as well as public discourse and material artifacts the author traces the mobilization of Lübeck as a distinctly German town during the Weimar Nazi and early Cold War eras highlighting particular ways participants included and excluded racial religious and other cultural identities in their own imagined community Focusing on the festival as both a site of participation and consumption the author assesses two postwar periods as well as the legacy of the Holocaust in a northwest German town

Who's the Bigot? Linda C. McClain, 2020-02-03 Historically critics of interracial interfaith and most recently same sex marriage have invoked conscience and religious liberty to defend their objections and often they

have been accused of bigotry Although denouncing and preventing bigotry is a shared political value with a long history people disagree over who is a bigot and what makes a belief attitude or action bigoted This is evident from the rejoinder that calling out bigotry is intolerant political correctness even bigotry itself In *Who's the Bigot* the eminent legal scholar Linda C McClain traces the rhetoric of bigotry and conscience across a range of debates relating to marriage and antidiscrimination law Is bigotry simply the term society gives to repudiated beliefs that now are beyond the pale She argues that the differing views people hold about bigotry reflect competing understandings of what it means to be on the wrong side of history and the ways present forms of discrimination resemble or differ from past forms Furthermore McClain shows that bigotry has both a backward and forward looking dimension We not only learn the meaning of bigotry by looking to the past but we also use examples of bigotry on which there is now consensus as the basis for making new judgments about what does or does not constitute bigotry and coming to new understandings of both injustice and justice By examining charges of bigotry and defenses based on conscience and religious belief in these debates *Who's the Bigot* makes a novel and timely contribution to our understanding of the relationship between religious liberty and discrimination in American life [Library Journal](#) Melvil Dewey, Richard Rogers Bowker, L.
