How to Survive a Zombie Attack

The town of 100,000, is overrun with all zombies and almost all small places 1.0 years in the making. These organisms are "born" the same human way but much smaller. They need 1 zombie to reproduce. This is similar to how 2 humans per day, but they are not born from long time. Also, they are completely safe every human in the planet. Compared the table below in some more ways. Total zombies show up for every day for the first 5 days after attack. The original always will be only 100,000, but

keep in mind that every single zombie also has the power to kill the whole town every day.

Day	Number of Zombies born each day	Day	Number of Zombies born each day
0	1	2	
1	11	3	
2		4	
3		5

1. What is the growth rate you notice in the number of zombies born each day?

2. What would this data look like on a graph? Would a graph of this data be linear?

right now without your even knowing it The Zombie Survival Guide offers complete protection through trusted proven tips for safeguarding yourself and your loved ones against the living dead It is a book that can save your life **How to Survive a Zombie Attack Guide** Dharma Notebooks, Enrique Solorzano, 2011-07-11 This is not a joke the zombies are in this world In your work in your house you can be married with one of them Everybody can be a potential living dead when the prophecies come true and the death walking in the earth This is the most acclaimed guide updated and approved by scientists from around the world to survive a Zombie attack *When All Else Fails Press Z* Thomas Woodsman, 2015-12-28 As a high school student so many years ago that I really don't want to remember it there was very little that seriously concerned me or those around me Our main concern each day was whether or not we'd be able to survive another day in class without being caught sleeping stealing a glance at a girl we just knew we were going to marry some day and finally what story we could tell that would have all of our friends on the edge of their seat as they listened to what our most recent adventure into juvenile delinquency was Never was there a time that we gave any consideration to zombies the living dead or having our brains eaten while we were still alive In fact zombies had not yet at that time even been discovered by anyone that we knew about so why worry about something or someone that didn't exist Such is not the case anymore Almost daily you hear stories about the coming zombie apocalypse and how to survive it Yet while the topic is popular the verdict is still out about how to deal with it or what you should must do to survive a zombie attack So with that in mind I decided to create the official zombie survival manuscript and settle the matter for all time Well that didn't go quite as well as I expected it would No what I learned is that there are so many differing opinions on surviving a zombie attack or apocalypse that it was simply impossible to put into any sense of authoritative writing exactly what must be done I thought that perhaps it would be best to just let people tell me their stories their theories and their sincere beliefs about zombies and how best to not become one of them So with that in mind I began interviewing those that would openly talk about the subject matter and help me understand as best I could what in the world is going on Though I was able to interview several people ALL of them insisted that they remain hidden under a veil of secrecy and would not allow me to give their real names where they lived or how they came about with their theories on surviving a zombie apocalypse I agreed to their terms and have transcribed all of the interviews and put them into this writing No names or locations will be revealed but the information is valuable viable and important enough in my most humble opinion that it is a must read for anyone seriously or even not so seriously considering what is happening in the world today Zombie Survival Sean T.
