

[.PDF] How to Write a Sentence: And How to Read One

How to Write a Sentence: And How to Read One by Fish" by Roy Blount Jr., a writer of non-fiction and occasional articles about the lives of people who have lived and died, is an impressive collection of short stories. Like a series of short periodic sentences, this witty book gathers steam, alternates gears, and delivers a Wall Street wallop. - Publishers Weekly

The short stories are interspersed with diary-like accounts from the point of view of a character who is neither stupid nor foolish, but aware of the fact that what he says to a fellow character may affect how that character acts in response. We recognize a number of familiar faces from our American heritage, including John Kennedy, Richard Nixon, and John F. Kennedy. We enjoy Roy Blount's wit, and his observations on how ordinary words and phrases have become part of everyday speech. He does not offer a scientific explanation for how the language works, but he does present a portrait of how language works to affect our experience. There is a memorable short story, "The Man Who Invented Grammar," that comes to mind.
