Studio Ghibli Animation as Adaptations Dominic J. Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like *My Neighbor Totoro* but many of its most famous films including *Howl's Moving Castle* and *Ponyo* have their origins in pre-existing novels manga or fairy tales Studio Ghibli's adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio's sensibilities Studio Ghibli Animation as Adaptations explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga

Steampunk Film

Robbie McAllister, 2019-03-07 *Steampunk Film A Critical Introduction* is a concise and accessible overview of steampunk's indelible impact within film and acts as a case study for examining the ways with which genres hybridize and coalesce into new forms. Since the beginning of the 21st century a series of high profile and big budget films have adopted steampunk identities to re-imagine periods of industrial development into fantastical histories where future meets past. By calling this growing mass cultural fetishism for anachronistic machines into question this book examines how a retro futuristic romanticism for technology powered by cogs pistons and steam engines has taken center stage in blockbuster cinema. As the first monograph to consider cinema's unique relationship with steampunk it places this burgeoning genre in the context of ongoing debates within film theory each of which reflecting the movement's remarkable interest in reengineering historical technologies. Rather than acting as a niche subculture Robbie McAllister argues that steampunk's proliferation in mainstream filmmaking reflects a desire to reassess contemporary relationships with technology and navigate the intense changes that the medium itself is experiencing in the 21st century. **Focus On: 100 Most Popular Fantasy Anime and Manga** Wikipedia contributors, *The Child in Cinema* Karen Lury, 2022-08-25 This book brings together a host of internationally recognised scholars to provide an interdisciplinary perspective on the representation of the child in cinema. Individual chapters examine how children appear across a broad range of films including *Badlands* 1973 *Ratcatcher* 1999 *Boyhood* 2014 *My Neighbour Totoro* 1988 and *Howl's Moving Castle* 2004. They also consider the depiction of children in non-fiction and non-theatrical films including the documentaries *tre et Avoir* 2002 and *Capturing the Friedmans* 2003 art installations and public information films. Through a close analysis of these films contributors examine the spaces and places children inhabit and imagine a concern for children's rights and agency the affective power of the child as a locus for memory and history and the complexity and ambiguity of the child figure itself. The essays also argue the global reach of cinema featuring children including analyses of films from the former Yugoslavia Brazil and India as well as exploring the labour of the child both in front of and behind the camera as actors and filmmakers. In doing so the book provides an in-depth look into the nature of child performance on screen across a diverse range of cinemas and film-making practices. **Focus On: 100 Most Popular Films Based on British Novels** Wikipedia contributors, **Global Communication** Thomas L.
