Jhunjhunwala,2024-05-27 My journey into the world of stock markets particularly technical analysis was a whirlwind of information I devoured over 500 books by various authors and attended countless seminars and webinars Yet a nagging frustration persisted a lack of simplicity My early forays were plagued by jargon an overwhelming array of tools and complex methodologies Half the battle was deciphering the language itself As I delved deeper a revelation struck me the market is ultimately driven by human psychology It s about understanding the movements fueled by emotions This led me to focus on price and trend analysis free from jargon Instead of naming the phenomenon I prioritized comprehending what the price itself was telling me Similarly risk management often felt like deciphering arcane math problems Many resources convoluted the concepts making them unnecessarily complex Here I ve strived for clarity and practicality Finally there s the often touted mindset training In my experience it s sometimes a buzzword more than a necessity However there are a few key principles that shape a trader s mindset and I ve included those essential pointers without requiring a course in brain anatomy This book is a culmination of my ongoing learning journey in the markets It s a testament to the power of understanding over theoretical definitions My aim is to provide a jargon free math light experience with a dose of mindfulness that doesn t require a deep dive into brain function Welcome aboard I hope this book earns a cherished spot in your trading library A

financial trading books read more like an infomercial than a book this is different Would you jump out of an airplane without a parachute Then why would you start making trades online before you learned what you were doing It s crazy But with deep discount brokers making it look so easy for individual investors it s no wonder consumers today are lulled into a false sense of security You can t rely on outdated textbooks and strategies anymore But if you adapt you can make a considerable fortune with these new market conditions Here s just a fraction of what you ll discover inside The best brokerage accounts for swing traders setting this up right can save you 1000 a year in commissions How social media moves asset prices and how to always be first to act on these do this and you ll almost always ensure lower entry prices than your competition The only 3 strategies you need for swing trading success despite what everyone else tells you it s these 3 which will bring 90% of your profits How to always ensure the right entry position for a trade How to spot under or overvalued stocks with 99% accuracy The magic trading number If you win this percentage of your trades you ll make massive profits lower than you think The secret to finding your trading edge hint the risk reward ratio isn t enough When to invest and more important when NOT to invest like Warren Buffett The 10 best traders to follow on Twitter for maximum profit opportunities The 1 thing new traders miss about aftermarket trading Get this right and you ll have a huge advantage How to set a proper stop loss so you don t get stopped out prematurely One of the biggest mistakes new traders make is having a stop loss which is too tight Do this instead and you ll profit when the market moves in your favor The zen trader strategy which makes you immune to losses which although rare will occur with any trading plan A useful yet barely known website which breaks company news faster than relying on mainstream news services How to use the other 80 20 rule to profit from short term price movements 3 profit securing lessons you can learn from the DOTCOM bubble Why a new trader should never trade cryptocurrency How one trader made 1 4 million in a single day with 1 options trade and why you shouldn t try to replicate their strategy Hedge Fund Style money management for absolute beginners How to profit from legal marijuana all the upside of cannabis growing companies but without the red tape and volatility A simple technique you can do in just 5 minutes a day This is used by top hedge fund traders and almost always guarantees an increase in your percentage of winning trades A backdoor technique which lets the market do the work for you an effective passive trading strategy and used by Wall Street all the time and much much more You may have experienced various obnoxious and even misleading advertisements of easy get rich trading strategies This is not one of those You won t have to spend thousands on expensive trading software or magic bullet systems In fact you can get started using an online trading account and use free websites for your information you ll find the best two in Chapter 7 All written in plain easy to understand English So if you want to make money in your spare time and have fun while doing it scroll up and click add to cart [The Layman's Legal Guide to Essential Laws](#) Francis Walter Marshall,1934
