Knutsen, 2016-12-14 States of Decadence is a two volume anthology that focuses on the literary and cultural phenomenon of decadence Particular attention is given to literature from the end of the 1800s the fin de siècle however the essays presented here are not restricted to this historical period but draw lines both back in time and forward to our day to illuminate the contradictory multiplicity inherent in decadence Furthermore the essays go beyond literary studies drawing on a number of the tropes and themes of decadence manifested in the arts and culture such as in music opera film history and even jewelry design

Hitler's Vineyards Christophe Lucand, 2020-02-19 Fascinating Detailed well written and controversial Lucand's history of France and its wine during the Nazi Occupation is an unexpected treat The Wine Economist During the Second World War French wine was hardly a trivial product Indeed following the Fall of France it proved to be one of the most valuable French commodities in the eyes of the Nazi leaders In 1940 Weinführer official delegates and wine experts appointed by Berlin were sent to all the wine regions of France to coordinate the most intense looting that the country had ever seen Alongside the very ambiguous relationship of the Vichy Regime and the collaboration of many French professionals with the occupiers this immense program of wine collection was a drama that many would prefer to forget Now more than seventy years after the end of the conflict the time has come to tell the story of what really happened Following a meticulous investigation and relying exclusively on previously unpublished sources Christophe Lucand reveals the history of the world of French wine that was subjected to the tests of war occupation and of all the compromises this entails The author has walked the line with sensitivity and provided a balanced review of this very painful time for French winemakers
