Leading in a Changing World Graeme Codrington, Keith Coats, 2015 *Leading in a Changing World* Keith Coats, Graeme Codrington, 2014-08-25 Fascinating A teaching book that I couldn't put down If the world is changing leadership needs to change The world is changing It is that simple it is that complex Through our work in TomorrowToday Global we have been at the very forefront of this intersection of a changing world and changing leadership across the broad scope of industries and sectors spanning all corners of the globe And what we see concerns us We see leaders who are frustrated that they can't mobilize their teams to adapt quickly enough to change We see leaders who feel the horizon of their strategic plans rushing ever closer resulting in decision making that often feels closer to guesswork than science We see leaders battling to manage their teams to keep and get the most of talent to develop succession plans and to ensure everyone is focused on the same outcomes We see leaders exasperated at the lack of initiative their teams have and yet equally bound by increasing regulation bureaucracy and inertia We see leaders struggling to lead We see leaders unable to admit that they're struggling to lead Maybe the symptoms we've just listed don't all apply to you or maybe you have a sense that your organization's problems lie elsewhere Whatever the specific issues are we're sure you'll agree with us that leadership isn't what it used to be And a big part of the reason for this is that leadership itself is changing just as the world around us is changing in dramatic ways The leadership theory that underpins our practices of leadership is in need of review For the most part the way in which we review and measure leadership practice no longer works The only way to change all this is for leaders and those tasked with the responsibility of leadership development to step back rethink things and be willing to change It means asking searching questions challenging assumptions and revisiting formulae that have for a very long time worked rather well This is easier said than done But it can be done and this is what this book is about Future focused leaders will gain insight into what it takes to succeed in a time of disruptive change The book provides both a new lens through which to see the world and leadership as well as practical tools and tips to help you make the journey towards a new leadership style and approach **Leading in a Changing World - Updated Edition** Keith Coats, Graeme Codrington, 2019-05-16 The challenge to be a future fit leader is as unrelenting as it is difficult *Leading in a Changing World* is about the current and future challenges that leaders face It explores the type of thinking behaviour and habits that leaders will need in order to successfully navigate the unfolding future This completely updated and revised edition for the 2020s adds new insights gained from the work the authors have done with many leaders since they first published this book It's more practical picks up key issues that leaders are dealing with and even more clearly shows the path leaders need to follow to be successful in these turbulent times *Leading in a Changing World* offers multiple frameworks and searching questions the type that smart leaders ask of themselves and others in order to engage one's thinking and shape one's actions The authors have drawn on their extensive global experience having worked with executive and senior leaders across multiple industries as well as with
