<u>Lean for the Process Industries</u> Peter L. King, 2019-06-05 Compared to its widespread implementation across almost all areas of production Lean improvement efforts lag within the process industries While many innovators have successfully applied Lean principles to these industries during the past three decades most of those pioneering efforts were never recorded to guide the improvement efforts of others Drawing on more than 40 years of application experience at one of the world s largest chemical and materials manufacturers coupled with 10 years in private practice Peter King corrects this void by providing the first comprehensive resource written explicitly for change agents within the process industries Focusing on areas where the improvement needs of the process industry differ from parts assembly manufacturing Lean for the Process Industries Dealing with Complexity Second Edition Covers each of the eight wastes commonly described in Lean literature looking at
