Learn Basic Malayalm in Six Weeks John Kunnathu,2015-06-22 This is a guide to learn Malayalam as a second language for the speakers of English Malayalam is the language of Kerala South India The material is presented as 42 lessons with worksheets and answer key The authors who were language teachers in Africa and in the US for over 25 years have made use of contemporary knowledge of linguistics and easy to follow and effective teaching methods This guide may be used by all those who want to learn Malayalam such as the children of Keralites who live abroad and those who come to Kerala for studies and for employment

Speak Malayalam in Ten Weeks John Kunnathu,Lissy John,2017-07-14 *Speak Malayalam in Ten Weeks* is a new book by John D Kunnathu Lissy John This book helps the speakers of English to gain the basic skills of speaking listening reading and writing Malayalam This book was created as a second part to their earlier work *Learn Basic Malayalam in Six weeks* which was found helpful by hundreds of people in the US and Europe This book has ten lessons which are built around ten children s songs which have been sung by Yesudas the well known singer The songs are based on the traditional popular animal fables Thus the learners have the opportunity to learn Malayalam as presented through the voice of Yesudas By the end of the ten lessons a learner will be able to listen and understand Malayalam The learner will also gain the ability to speak Malayalam Our first book focused on the skills of reading and writing but this one focuses on listening and speaking This book makes use of the contemporary knowledge of the language and the contemporary ways of learning Someone with a basic knowledge of the writing system of Malayalam can easily follow this book and rise to a higher level A reviewer Andre Pleasant wrote Great helper for learning a new language Wonderful book Another reviewer Reba M wrote This book was a very thorough and helpful tool in helping me to learn how to speak Malayalam

Malayalam
Alphabet John Kunnathu,Lissy Kunnathu,2017-12 This is a workbook for those who learn to write Malayalam Alphabet The focus is on the shape of the letters and on how to write them The letters are ordered from simple to complex so that the learners won t be intimidated by the few complex ones The letters are classified into base forms short forms and combined forms A page is devoted for each letter At the top left you see the letter along with the direction as to how to write it A star indicates the place to start writing a letter At the top right you see a little help as to its sound Also you see a few words in which the letter occurs Then you see in six rows six sets of the letter in dotted lines in varying sizes The biggest ones are at the top and they become smaller as they go down The learner is not supposed to write all of them together In the first week the learner may write only the ones in the first row He she may visit as many pages as time permits but he she should stay within the first row In the second week he she may come back and do the second row of each of those pages he she visited Thus the learner needs to spend a minimum of six weeks to complete the entire book If the learner is a child he she should be directed to stick to the plan of one row per week Filling each page fully before going to the next won t serve the purpose As the learner writes a letter he she needs to sound it too so that each letter will be associated with the sound it represents All

Malayalam sounds don't have English equivalents. The learner will have to seek the help of a native speaker if available. The learner may also search in Youtube for Malayalam alphabet pronunciation and listen from there. There is also a list of a few common words and a few sentences toward the end of the book. This is the very first book a level 1 learner of Malayalam may use. The same authors have made two more books available for the next levels. *Learn Basic Malayalam in Six Weeks* is level 2 and *Speak Malayalam in Ten Weeks* is level 3. A reviewer Shija Abraham wrote *Malayalam Alphabet Practice Workbook* by John Kunnathu and Lissy John is very well organized with mainly English speaking people kids in mind. Equivalent English sound for all vowels and consonants with a practice page is given for each letter. To help beginners arrows are shown in the direction in which each letter is written. It also covers stressed consonants, consonant combinations, short form of consonants and consonants without a vowel. The book ends with some common words and sentences which also give a short history of the Malayalam language. The book provides a plan to learn the language in 6 weeks. The Kunnathu's experience as educators is very well displayed in the structure and the content of the book. I highly recommend this book for all beginners. **Learn Malayalam in 30 Days Through English** Krishna Gopal Vikal, 2022-04-21. The greatest sensation of life is to learn a language. One has to closely watch a child going through this experience to be convinced of this. Every time he learns a new word or construction from mother, father or other relatives, his heart is filled with wonder, excitement, thrill and creative urge and he toys with its various forms and tones bringing into play all the creative forces within him. To learn a new language is to re-enter this wonderful experience of life opening infinite opportunities for creative action. Besides, in a fast expanding world transcending all barriers of colour, caste, religion and language, a new language is an essential tool of life. The book primarily attempts to introduce those whose mother tongue is not Malayalam to learning of Malayalam by the most natural and the simplest method. It adopts the scientific approach introducing alphabets, words, sentences in that order and application of these in the most common situations of daily life. Situational sentences and conversational sentences selected for the book reflect the maximum possible commonness of Indian languages and Indian culture. The purpose is that the learner during the process of learning should be sufficiently equipped to converse and transact with a very vast section of Malayalam speaking people throughout India and abroad. *My First Malayalam Alphabets Picture Book with English Translations* Indu S., 2019-09-20.
