**Speaking of Learning** . . . Avraham Cohen, Heesoon Bai, Carl Leggo, Marion Porath, Karen Meyer, Anthony Clarke, 2014-09-11 I have no doubt that many of you who read this book will be captivated by it just as I have been captivated. This book is woven through evocative stories told by masterful educators who came together to explore the meanings of learning, teaching, and life. For those who have read *Speaking of Teaching*, it is not a surprise to hear again the profoundly touching, humane, and imaginative voices of these authors. This book draws me in, touches my heart, and refreshes my mind. Hongyu Wang, Professor, Oklahoma State University, Tulsa, OK, US. The authors invite us to join them in asking: What else can learning be? What else, indeed, is beyond the recipes, rubrics, formulas, and credentials of contemporary education? Deep in the heart of their own personal stories, told and untold, spoken and unspoken, the authors search and tell. With an artful admixture of stories, poems, artwork, and reflections, this book is a rare opportunity to listen in on an eight-year extended conversation amongst these gifted educators as they become increasingly present in their learning journeys. Arden Henley, Professor and Principal, Canadian Programs, City University of Seattle, Vancouver, BC, Canada.

**Supporting Learning Flow Through Integrative Technologies** Tsukasa Hirashima, Ulrich Hoppe, Shelley Shwu-Ching Young, 2007. Contains a range of issues related to using information technology for learning. This book indicates a move from local support of specific learning activities towards supporting learning and teaching processes in a broader context, beyond single tools and individual users, considering user/learner groups on different levels of granularity.

In addition to the main listings of entries such as Chamber Music and Piano Duet, the book has indexes of authors, composers, and performers.
