The Integrator Scott Coplan, 2022-03-24 When a 145 million IT project failure pushes Los Angeles to the edge of financial meltdown the County CEO asks Max McLellan a harried IT project manager aka The Integrator for help The County Board gives Max 30 days to identify the problem and find a solution At first Max finds the usual missteps but something bigger and darker beckons an explosive source of project failure He must do something different rattling ghosts of previous County IT failures unclocking crookedness and exposing truths that shatter careers With some people rooting for his failure Max battles to fit all the pieces together with the County team applying his proven framework to define the problem plan a solution and

execute it successfully It s common knowledge that barely 50% of IT projects succeed per a 2017 Project Management Institute report Equally well known approximately 70% of large scale change management initiatives fail according to a 2017 McKinsey Co report Given the challenge to overcome these low success rates The Integrator offers a proven narrative on the organizational change framework for achieving Agile IT project management success based on the author s 45 year client experiences and published research The Integrator defines change management as the single overarching methodology integrating Agile IT and project management It does this because all projects are about change significant organizational and personal change The people involved their participation in and understanding and support of these changes ultimately determine IT projects success or failure In fact while all IT projects are about change successful projects change human behavior The methodologies included in the framework described in The Integrator include Change management as defined by AIM Accelerating Implementation Methodology Project management as defined by the Project Management Institute PMI Guide to the Project Management Body of Knowledge PMBOK Guide standard IT management as derived from the Institute of Electrical Engineers IEEE Guide to the Software Engineering Body of Knowledge SWEBOK standard Agile as defined by the Agile Alliance s Agile Manifesto Written by a certified Project Management Professional and accredited change management practitioner The Integrator chronicles the challenges involved in applying this framework in a real world setting to achieve successful project implementation

Exploring Management Through Qualitative Research Marta Najda-Janoszka, Corina Daba-Buzoianu, 2018-01-01 Our intention with this special issue is to continue a rich scholarly dialogue on producing insightful qualitative research in the management field Being engaged in fieldwork through varied research endeavors we have experienced challenges and uncertainties when doing qualitative research e g Najda Janoszka 2016a 2016b Daba Buzoianu Bira Tudorie Daba Buzoianu Cassell Pratt 2009 because it could put at risk the fluid and emergent nature of qualitative research Cassell Sinkovics Alfoldi 2012 We agree with the standpoint of Symon Cassell and Johnson 2016 that evaluation criteria should not marginalize alternative perspectives nor impose unified normative practices Representing different research backgrounds strategic management communication as well as perspectives organizational individual we have discussed promising opportunities for management studies stemming from confronting distinct research traditions within an interpretive approach The biennial conference Qualitative Research in Communication QRC in Bucharest provided the perfect environment to enhance such a debate and resulted in a call for this special issue Papers included in the issue do not contribute to the standardization trend but are expected to show the diversity of methods used and phenomena studied in

the qualitative research in management *Advanced Data Science and Analytics with Python* Jesus

Rogel-Salazar, 2020-05-05 *Advanced Data Science and Analytics with Python* enables data scientists to continue developing their skills and apply them in business as well as academic settings. The subjects discussed in this book are complementary and a follow up to the topics discussed in *Data Science and Analytics with Python*. The aim is to cover important advanced areas in data science using tools developed in Python such as SciKit learn, Pandas, Numpy, Beautiful Soup, NLTK, NetworkX and others. The model development is supported by the use of frameworks such as Keras, TensorFlow and Core ML as well as Swift for the development of iOS and MacOS applications. Features: Targets readers with a background in programming who are interested in the tools used in data analytics and data science. Uses Python throughout. Presents tools alongside solved examples with steps that the reader can easily reproduce and adapt to their needs. Focuses on the practical use of the tools rather than on lengthy explanations. Provides the reader with the opportunity to use the book whenever needed rather than following a sequential path. The book can be read independently from the previous volume and each of the chapters in this volume is sufficiently independent from the others providing flexibility for the reader. Each of the topics addressed in the book tackles the data science workflow from a practical perspective concentrating on the process and results obtained. The implementation and deployment of trained models are central to the book. Time series analysis, natural language processing, topic modelling, social network analysis, neural networks and deep learning are comprehensively covered. The book discusses the need to develop data products and addresses the subject of bringing models to their intended audiences in this case literally to the users' fingertips in the form of an iPhone app. About the Author: Dr. Jes s Rogel Salazar is a lead data scientist in the field working for companies such as Tympa Health Technologies, Barclays, AKQA, IBM Data Science Studio and Dow Jones. He is a visiting researcher at the Department of Physics at Imperial College London, UK and a member of the School of Physics, Astronomy and Mathematics at the University of Hertfordshire, UK. **The AMA Handbook of Project**
