Lost in the Amazon Stephen Kirkpatrick, 2023-12-19 In 1995 Stephen Kirkpatrick joined a five man expedition into the remote jungles of the Peruvian Amazon Kirkpatrick's assignment was to document an area of the rainforest that had never before been photographed nor by most accounts ever explored by white men Within hours of their departure an inaccurate map and a series of bad decisions leave the group hopelessly lost in the depths of the Amazon jungle What began as a career making photo expedition quickly turned into a desperate struggle for survival The five men battle poisonous reptiles hungry bugs torrential rains brutal heat and an unforgiving landscape in an attempt to find their way back to civilization They soon learn that survival is not only a physical but a mental and spiritual challenge as well *Lost in the Amazon* is a gripping sometimes humorous and ultimately inspirational story about the human drive to survive and about clinging to faith in the worst circumstances imaginable **Children's Books in Print, 2007**, 2006 *Risk in Children's Adventure Literature* Elly McCausland, 2024-05-31 *Risk in Children's Adventure Literature* examines the way in which adults discuss the reading and entertainment habits of children and with it the assumption that adventure is a timeless and stable constant whose meaning and value is self evident A closer enquiry into British and American adventure texts for children over the past 150 years reveals a host of complexities occluded by the term and the ways in which adults invoke adventure as a means of attempting to get to grips with the nebulous figure of the child Writing about adventure also necessitates writing about risk and this book argues that adults have historically used adventure to conceptualise the relationship between children and risk the risks children themselves pose to society the risks that threaten their development and how they can be trained to

manage risk in socially normative and desirable ways Tracing this tendency back to its development and consolidation in Victorian imperial romance and forward through various adventure texts and media to the present day this book probes and investigates the truisms and assumptions that underlie our generalisations about children s love for adventure and how they have evolved since the mid nineteenth century **Make Your Own Movie Machine** Rob Ives,2014-06-18 Discover the magic of animation with this complete guide to creating a device that offers the illusion of motion from a series of individual pictures Includes well illustrated instructions for assembling the viewer and making custom animation strips The Lost Jewels of Nabooti R.
