Cincinnati Price-current ,1911 *Speak English Or What?* Philipp Sebastian Angermeyer,2015 This book presents a study of interpreter mediated interaction in New York City small claims courts drawing on audio recorded arbitration hearings and ethnographic fieldwork Focusing on the language use of speakers of Haitian Creole Polish Russian or Spanish the study explores how these litigants make use of their limited proficiency in English in addition to communicating with the help of professional court interpreters Drawing on research on courtroom interaction legal interpreting and conversational codeswitching the study explores how the ability of immigrant litigants to participate in these hearings is impacted by institutional language practices and underlying language ideologies as well as by the approaches of individual arbitrators and interpreters who vary in their willingness to accommodate to litigants and share the burden of communication with them Litigants are shown to codeswitch between the languages in interactionally meaningful ways that facilitate communication but such bilingual practices are found to be in conflict with court policies that habitually discourage the use of English and require litigants to act as monolinguals using only one language throughout the entire proceedings Moreover the standard distribution of interpreting modes in the courtroom is shown to disadvantage litigants who rely on the interpreter as consecutive interpreting causes their narrative testimony to be less coherent and more prone to interruptions while simultaneous interpreting often leads to incomplete translation of legal arguments or of their opponent s testimony Consequently the study raises questions about the relationship between linguistic diversity and inequality arguing that the legal system inherently privileges speakers of English **The Mining World** ,1910 **Maintaining a Minority**

Language John Gibbons,Elizabeth Ramirez,2004-01-01 This book explores two main areas First what a high level of proficiency in two languages consists of and second what factors can produce this high level of bilingual proficiency Higher level language is usually acquired at school but many minority language students are educated in only one language The book therefore examines other factors in the development of the minority language such as home literacy practices and positive attitudes that might contribute to the development of high bilingual proficiency *The World Factbook* United States. Central Intelligence Agency,1989 **Engineering and Mining Journal** ,1893 *Spatializing Language Studies* Sébastien Dubreil,David Malinowski,Hiram H. Maxim,2023-09-12 This open access volume offers valuable new perspectives on the question of how mobility locatedness and immersion in the physical world can enhance second language teaching and learning It does so through a diverse array of empirical studies of language literacy and culture learning in the linguistic landscape of visible and audible public discourse Written from conceptually rich and disciplinarily varied perspectives its ten chapters address methodological and practical problems of relating language learning to the lived and rapidly changing

places of the late modern world Whether it is within the four walls of a school in a nearby multilingual neighborhood in a virtual telecollaborative space or in any other location where languages may be learned this volume highlights different configurations of learning spaces the leveraging of real world places for critical learning and ways to productively dislocate language learners from preconceived notions and standardized experiences Together these elements create conditions for a language and literacy pedagogy that can be said to be robustly spatialized linguistically and culturally complex geographically situated historically informed dialogically realized and socially engaged **The Country Gentleman** ,1904
