Irracionalidad. Una historia del lado oscuro de la razón Justin E. H. Smith, 2022-05-30 Irracionalidad es un relato ambicioso y cautivante que echa luz sobre la sinrazón en un momento en que el mundo parece haberse vuelto loco En esta historia de la irracionalidad de la Antigüedad a nuestros días desde el asesinato de Hipócrates de Metaponto en el siglo V a C por revelar el secreto de los números irracionales hasta el modo en que las fuerzas de la agresión y el caos han cooptado Internet Justin E H Smith sostiene que la irracionalidad constituye la mayor parte de la vida humana Desafiando el pensamiento convencional sobre temas como la lógica los sueños el arte la ciencia y la pseudociencia la ilustración los chistes y las mentiras y la muerte demuestra que el triunfo de la razón es siempre transitorio y reversible En un ciclo sin fin lo racional da origen a lo irracional y viceversa por lo que todo esfuerzo por establecer las cosas en orden de manera permanente tarde o temprano terminará en una explosión de insensatez Por eso es irracional intentar eliminar la irracionalidad se trata de una característica ineludible de la vida

Costello,2017-01-06 This collection of essays and interviews highlights the modern movement of philosophical practice Taking their cue and call from Socrates summons to know thyself contemporary philosophical counsellors and practitioners have returned to the ancient understanding of philosophy as consolation and contemplation as a life directed to the loving search for wisdom and clarity Socrates and the Stoics continued this tradition seeing philosophy primarily as a practical way of living in alignment with oneself and the logos Thus interpreted philosophy is a path teaches a method more than pronounces a thesis and issues a living praxis devoted to daily spiritual exercises whose aim is nothing less than the transformation of the self a metamorphosis of the personality This conception of philosophy s essence was lost but was later retrieved by certain philosophers such as Viktor Frankl and Ludwig Wittgenstein in the twentieth century who have unleashed and uncovered philosophy s original therapeutic impulse and intent As such this book will prove of inestimable value to philosophers psychologists psychotherapists psychiatrists counsellors clients and students of these disciplines
