**Friendship in the Middle Ages and Early Modern Age** Albrecht Classen, Marilyn Sandidge, 2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting

**Friendship and its Discourses in the Seventeenth Century** Cedric C. Brown, 2016-11-03 Cedric C Brown combines the study of literature and social history in order to recognize the immense importance of friendship bonds to early modern society Drawing on new archival research he acknowledges a wide range of types of friendship from the intimate to the obviously instrumental and sees these practices as often co terminous with gift exchange Failure to recognize the inter connected range of a friendship spectrum has hitherto limited the adequacy of some modern studies of friendship often weighted towards the intimate or gendered related issues This book focusses both on friendships represented in imaginative works and on lived friendships in many textual and material forms in an attempt to recognize cultural environments and functions In order to provide depth and coherence case histories have been selected from the middle and later parts of the seventeenth century Nevertheless many kinds of bond are recognized as between patron and client mentor and pupil within the family within marriage in courtship or according to fashionable refined friendship theory Both humanist and religious values systems are registered and friendships are configured in cross gendered and same sex relationships Theories of friendship are also included Apart from written documents the range of texts extends to keepsakes pictures funerary monument and memorial garden features Figures discussed at length include Henry More and the Finch Conway family John Evelyn Jeremy Taylor Elizabeth Carey Mordaunt John Milton Charles Diodati Cyriac Skinner Dorothy Osborne Temple William Temple Lord Arlington Sir Orlando

Bridgeman and Katherine Phillips and her circle especially Anne Owen Trevor and Sir Charles Cotterell *Friends, Neighbours, Sinners* Carys Brown, 2022-08-04 *Friends Neighbours Sinners* demonstrates the fundamental ways in which religious difference shaped English society in the first half of the eighteenth century By examining the social subtleties of interactions between people of differing beliefs and how they were mediated through languages and behaviours common to the long eighteenth century Carys Brown examines the graduated layers of religious exclusivity that influenced everyday existence By doing so the book points towards a new approach to the social and cultural history of the eighteenth century one that acknowledges the integral role of the dynamics of religious difference in key aspects of eighteenth century life This book therefore proposes not just to add to current understanding of religious coexistence in this period but to shift our ways of thinking about the construction of social discourses parish politics and cultural spaces in eighteenth century England

Trust and Distrust Mark Knights, 2021 Mark Knights offers the first overview of Britain's history of corruption in office in the pre modern era 1600 1850 Drawing on extensive archival material Knights shows how corruption in the domestic and imperial spheres interacted and how the concept of corruption developed during this period changing British ideas of trust and distrust

**Female Agency in the Urban Economy** Deborah Simonton, Anne Montenach, 2013-04-17 This innovative new book is overtly and explicitly about female agency in eighteenth century European towns However it positions female activity and decisions unequivocally in an urban world of institutions laws regulations customs and ideologies Gender politics complicated and shaped the day to day experiences of working women Town rules and customs as well as police and guilds regulations affected women's participation in the urban economy most of the time the formally recognized and legally accepted power of women which is an essential component of female agency was very limited Yet these chapters draw attention to how women navigated these gendered terrains As the book demonstrates exclusion is too strong a word for the realities and pragmatism of women's everyday lives Frequently guild and corporate regulations were more about situating women and regulating their activities rather than preventing them from operating in the urban economy Similarly corporate structures which were under stress found flexible strategies to incorporate women who through their own initiative and activities put pressure on the systems Women could benefit from the contradictions between moral and social unwritten norms and economic regulations and could take advantage of the tolerance or complicity of urban authorities towards illicit practices Women with a grasp of their rights and privileges could defend themselves and exploit legal systems with its loopholes and contradictions to achieve economic independence and power

at all levels providing a diverse range of primary sources and the tools to unlock them Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 Gender and Authority in the Late Medieval Church asks a deceptively simple question How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men The remarkable endurance of an all male clergy is an important element of medieval church government one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority the strategies that bishops used to secure the compliance of a relatively autonomous clergy As Ian Forrest shows bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles Everywhere in the medieval church were women who had the capacity the resources and often the ambition to take part in governance from abbesses to priests servants mothers sisters and unofficial wives Bringing together evidence of female activity at the margins of the institutional church Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn Drawing on case studies from the English diocesan clergy between the mid thirteenth and early sixteenth centuries he explores how women s involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy In doing so Gender and Authority in the Late Medieval Church tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance
