zijn met het lezen en schrijven van poëzie als een remedie tegen de worsteling die leven vaak is. Een vogel zingt in de lucht, dit boek zingt voor jou. Kim Stafford, auteur van *The Muses Among Us: Eloquent Listening and Other Pleasures of the Writer's Craft*. In dit boek laat Reineke Lengelle zien dat poëzie een spiegel is van onze ervaringen. De auteur geeft inzicht in hoe het schrijven van gedichten haar in staat stelde levensgebeurtenissen te verwerken. In een uitnodigende, directe stijl worden we van grote vragen over leven en dood meegenomen naar thema's als intimiteit en ouderschap. Oefeningen en schrijfsuggesties gebaseerd op technieken die ze samen met haar vele studenten heeft ontwikkeld, spreken tot de verbeelding. Dit boek biedt een gulle toegang tot zowel poëzie als de wereld van expressief schrijven voor persoonlijke ontwikkeling. Victoria Field, poetry therapist en auteur van *Baggage: A Book of Leavings*. Emotions and Needs, Dawn Freshwater, Chris Robertson, 2002. Robertson and Freshwater explicitly use the development of a therapeutic relationship and parallel with it the development of an individual psyche as a vehicle for their exploration of emotions and needs. The subtlety is that their exploration like psychotherapy itself begins with the complexity and ends with the simplicity. Self Society Through the centrality of the concepts of needs and emotions, this volume describes and discusses issues that are fundamental to psychotherapy. As an alternative to classifying modalities of psychotherapy and the way in which they understand needs and emotions by their author's era or underpinning philosophy, this book focuses instead on the emotional patterning of psychotherapy. The book explores need and emotion in relation to what patients bring to therapy and what subsequently facilitates effective engagement. Examining ways of understanding the manifestation of needs and emotions, the authors bring differing therapeutic schools of thought together in contemporary models of integrative psychotherapy which draw upon the transpersonal, postmodern and poststructural. The book is illustrated throughout with clinical vignettes which help the reader ground the theoretical concepts in everyday practice. The discussions in this volume not only add to the current body of knowledge surrounding the fundamental concepts of emotions and needs but also make a long overdue contribution to the psychotherapeutic professions. *Emotions and Needs* will be of interest to students and practitioners in fields such as counselling, psychotherapy, clinical psychology and social work. *Bulletin of the Atomic Scientists*, 1959-02. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world.

A book to heal, Anna Ferrari, 2022-04-06. At first I only wrote these notes for myself. It was a difficult moment in my life. I was reborn after a period of darkness where I had lost contact with reality to the point that I could no longer think or read an activity that was and is the cornerstone of my life. I did not decipher the symbols on the page; they had lost their meaning. I did not remember everything had been swallowed in the womb of suffering and the more I tried, the more I failed to the point of being terrified.

of picking up a book every day the malaise plunged me deeper It was chilling sad tormenting Then I met a specialist who like a good fairy brought me back to the surface with love and intelligence the first thing I did as soon as I felt better was reading To prove to myself that my head was working again at the end of each novel I wrote at first with desperation then with increasing pleasure my comments to see if I could finally understand and remember what I was reading I have two whole thick chunks of these comments written straight away with no other concern than talking to myself and reassuring myself I was and am an avid reader I have worked with books all my life for this reason death and rebirth have passed through words A few years after that period I reread those comments and found in them both hasty almost anxious writings and others more stimulating Over time they revealed an inherent power to me commenting on those books I commented on myself the myself that was found now in this now in that story or novel It is in this perspective that the analyzes contained in A book to heal are special they are not the usual reading advice perhaps thrown down for editorial needs they are much more they are confessions and therefore sincere appreciation or slashing of those books that have marked my path to healing This exceptional character of theirs reveals to the reader a good book to read and also marks the path that can be taken in difficult moments of life because we are what we say and what we read penetrates our depths and remains there until it gives its fruits that nourish the hope and the desire to succeed Anyone therefore can retrace my path and later can also add his own In this way A book to heal was born whose origin is therefore an act of love and the words that compose it were written with love Even the title gradually arose from the feelings I felt in reworking these texts and I immediately adopted it as soon as it appeared Inside the volume you will find a section in English the result of another birth A bit like everyone else different personalities coexist within me Anna the writer the Teacher and so on A few years ago another one was born Aileen who thinks speaks and writes in English In this capacity the writing becomes freer somehow protecting Aileen s feelings and fears with a foreign language Antonia S Byatt Jane Austen Clarice Lispector Nicola Lagioia are some of the authors I speak of each of them has delicately shown me an unusual and surprising aspect of life they have made me learn that life never ends but it is always a harbinger of surprises and revelations In conclusion that phase of my life which gave me A book to heal taught me that nothing more than a book can give us back the love for ourselves and for the world nothing more than a book helps us to build our way and therefore our life Translator Erica Brusco PUBLISHER TEKTIME 13 Different Men of the Zodiac Dr. Regina Atara Wead,2022-06-10 This is not an astrological textbook and it doesn t provide any astrological forecasts You ll never understand all the planets simply by reading this book This book is a simplified and entertaining way of describing the influences that the planet Mars has on the human personality and the particular way the planet influences men This information is based on decades of professional astrological consultation and research along with a careful evaluation of human psychology Hopefully it will provide you with insight into what makes a man tick **New York Magazine** ,1986-01-20 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made
