Differentiating Instruction for Gifted Learners Christine L. Weber, Wendy A. Behrens, Cecelia Boswell, 2021-09-03. *Differentiating Instruction for Gifted Learners* allows educators and stakeholders to examine issues related to differentiating curriculum and instruction in a variety of contexts. The case studies in this rich resource analyze various differentiation strategies and their benefits to promote classrooms where every student belongs, every student is valued, and every student is nurtured. The cases facilitate conversations about children and their unique needs by situating learning in authentic and meaningful contexts with the goal of helping educators improve services and programs for gifted and talented students. Things to Consider guide the reader's thinking without imparting an explicit action recommendation or solution. Discussion questions, activities, extensions, and suggestions for additional readings support the standards of excellence set forth in the revised NAGC CEC Teacher Preparation Standards in Gifted and Talented Education and the NAGC CEC Advanced Standards in Gifted Education Teacher Preparation.

Teaching Math, Science, and Technology in Schools Today Dennis Adams, Mary Hamm, 2014-02-19. *Teaching Math, Science, and Technology in Schools Today* Guidelines for Engaging Both Eager and Reluctant Learners offers unique, engaging, and thought-provoking ideas. The activities open imaginative doors to learning and provide opportunities for all learners. It surveys today's most important trends and dilemmas while explaining how collaboration and critical thinking can be translated into fresh classroom practices. Questions, engagement, and curiosity are viewed as natural partners for mathematical problem solving, scientific inquiry, and learning about technology. Like the Common Core State Standards, the book builds on the social nature of learning to provide suggestions for both eager and reluctant learners. The overall goal of the book is to deepen the collective conversation, challenge thinking, and provide some up-to-date tools for teachers so they can help reverse the steady erosion of math, science, and technology understanding in the general population.
