How To Teach The Bible:

How to Teach the Bible Lucien Coleman, 2003-12-16 The author was conducting a workshop for teachers in a church and was handed a note by a young woman in the workshop The note read I have never taught anything or anyone I don't know how to begin to prepare Can you help Dr Coleman meets scores of teachers just like the young woman He indicates there are men and women who are doing their best but who have serious doubts about their adequacy as teachers of the Bible Wherever you meet them they ask these same questions How can I learn enough about the Bible to have something worth sharing with my class How can I get the members of my class involved in the lessons so I won't have to do all the talking How do you get people interested when they seem so indifferent to Bible study Is there any way to get the class members to study their lessons How do you lead class members to do something about the message of the Bible other than just sit there and discuss it Where can I find out more about teaching methods How do you prepare a teaching plan These workers care deeply about Bible teaching They want to do a good job But they don't quite know how to go about it And that explains the reason for this book Dr Coleman integrates theory and practice in a how to do it book which combines discussions of teaching with skill building exercises He brings the elements of a Bible teacher's conference to the individual who has had no opportunity to attend such a conference At the same time the book may also be used as a textbook for teacher training workshops

How to Teach the Bible David Bergsland, 2012-10-21 Learning how to teach scripture with power Bible studies are a primary and often the best way to introduce someone to knowledge of the Lord Though it is true that only the Holy Spirit can bring a person to repentance and salvation it is also true that the scriptures are inspired by God and useful to teach us what is true and to make us realize what is wrong in our lives They correct us when we are wrong and teach us to do what is right Though it is true that the Bible does not save us It is one of the best ways to lead a person into enough knowledge about the Lord so that they wish to know the Lord Jesus personally Jesus saves only Jesus But He also anointed the writers of the Bible to give us the truth about creation humanity and divinity This book shares nearly forty years of experience in leading Bible studies to you It shows you how to proceed so that the Holy Spirit can actually lead your Bible study This is the only way you can actually be used to transform people's lives We have no power in ourselves except for the power of God which lives in us You need to learn to tap that power allowing it to flow through you to touch people and transform their lives The power is in the Lord Learn to teach the bible with the power to transform lives This book has tips and techniques from a man who has been focused on teaching scripture for almost 40 years This is not some wimpy guide but practical instruction on how to allow the Holy Spirit to transform your Bible study into a tool to help your students grow spiritually beyond what they ever expected These techniques will change lives including yours as the teacher

The Bible and the Task of Teaching David Smith, John Shortt, 2002. This study explores the relevance of beliefs, virtues, personal and cultural stories, images, and metaphors, and canonical genres to the ways in which we understand and carry out the task of teaching.

Creative Bible Teaching Lawrence O. Richards, Gary J. Bredfeldt, 1998-03-01. Are you a bridge builder? Communicating the Scriptures is much like building a bridge. However, instead of ravines or rivers, the teacher must span both cultural boundaries and great gulfs of time between the present and the past of Moses, David, Jesus, and Paul. This bridge must reach even further. The student must be able to cross both into the past and into his own future. God's Word is living and active, sharper than any double-edged sword. Hebrews 4:12. It is contemporary, relevant. But it is the teacher who has the task of helping the student to see its vast treasures. This is no easy task, but it can be done through creative Bible teaching. Together, Richards and Bredfeldt have written a book on bridge building that reveals the following five-step process by which Christian educators can construct a bridge across time, geography, and culture. Step I: Studying the Bible. Develop an understanding of the nature, role, study, and interpretation of the Bible. Get the help you need in preparing biblically accurate lesson plans. Step II: Focusing the Message. Learn how to teach for student learning. Be guided in the process of translating learning theory into lesson preparation. Step III: Structuring the Lesson. Develop a lesson plan using the HOOK-BOOK-LOOK-TOOK structure. Step IV: Teaching the Class. Learn about the five key principles of teacher effectiveness. Discover how these principles can lead to a more dynamic and satisfying teaching experience within various age groups. Step V: Evaluating the Results. Evaluate your own effectiveness by assessing the outcome of your teaching.
