How To Walk To School Blueprint For A Neighborhood School Renaissance:

How to Walk to School Jacqueline Edelberg, Susan Kurland, 2009-07-16 When two gutsy moms ventured inside Nettelhorst their neighborhood's underutilized and struggling public elementary school the new principal asked what it would take for them to enroll their children Stunned by her candor they returned the next day armed with an extensive wish list The principal read their list and said Well let's get started girls It's going to be a busy year How to Walk to School is the story from the highs to the lows of motivated neighborhood parents galvanizing and then organizing an entire community to take a leap of faith transforming a challenged urban school into one of Chicago's best virtually overnight The fate of public education is not beyond our control In How to Walk to School Susan Kurland Nettelhorst's new and entrepreneurial principal and Jacqueline Edelberg the neighborhood mom provide an accessible and honest blueprint for reclaiming the great public schools our children deserve Check out www.howtowalktoschool.com for more information [The Wiley Handbook of Family, School, and Community Relationships in Education](#) Steven B. Lopez, 2014-07-22 Draws on research to offer strategies for adopting a high hope attitude and shaping a successful future and provides real life examples of people who create hope and have changed the lives of their communities [Marketing Schools, Marketing Cities](#) Maia Bloomfield Cucchiara, 2024-05-31 Discuss real estate with any young family and the subject of schools is certain to come up in fact it will likely be a crucial factor in determining where that family lives Not merely institutions of learning schools have increasingly become a sign of a neighborhood's vitality and city planners have ever more explicitly promoted

good schools as a means of attracting more affluent families to urban areas a dynamic process that Maia Bloomfield Cucchiara critically examines in *Marketing Schools Marketing Cities Focusing on Philadelphia's Center City Schools Initiative* she shows how education policy makes overt attempts to prevent or at least slow middle class flight to the suburbs Navigating complex ethical terrain she balances the successes of such policies in strengthening urban schools and communities against the inherent social injustices they propagate the further marginalization and disempowerment of lowerclass families By asking what happens when affluent parents become valued customers *Marketing Schools Marketing Cities* uncovers a problematic relationship between public institutions and private markets where the former are used to leverage the latter to effect urban transformations

There Goes the Gayborhood? Amin Ghaziani, 2014-08-10 An in depth look at America's changing gay neighborhoods Gay neighborhoods like the legendary Castro District in San Francisco and New York's Greenwich Village have long provided sexual minorities with safe havens in an often unsafe world But as our society increasingly accepts gays and lesbians into the mainstream are gayborhoods destined to disappear Amin Ghaziani provides an incisive look at the origins of these unique cultural enclaves the reasons why they are changing today and their prospects for the future Drawing on a wealth of evidence including census data opinion polls hundreds of newspaper reports from across the United States and more than one hundred original interviews with residents in Chicago one of the most paradigmatic cities in America *There Goes the Gayborhood* argues that political gains and societal acceptance are allowing gays and lesbians to imagine expansive possibilities for a life beyond the gayborhood The dawn of a new post gay era is altering the character and composition of existing enclaves across the country but the spirit of integration can coexist alongside the celebration of differences in subtle and sometimes surprising ways Exploring the intimate relationship between sexuality and the city this cutting edge book reveals how gayborhoods like the cities that surround them are organic and continually evolving places Gayborhoods have nurtured sexual minorities throughout the twentieth century and despite the unstoppable forces of flux will remain resonant and revelatory features of urban life

When Middle-Class Parents Choose Urban Schools Linn Posey-Maddox, 2024-05-31 In recent decades a growing number of middle class parents have considered sending their children to and often end up becoming active in urban public schools Their presence can bring long needed material resources to such schools but as Linn Posey Maddox shows in this study it can also introduce new class and race tensions and even exacerbate inequalities Sensitively navigating the pros and cons of middle class transformation *When Middle Class Parents Choose Urban Schools* asks whether it is possible for our urban public schools to have both financial security and equitable diversity Drawing on in depth research at an urban elementary school Posey Maddox examines parents efforts to support the school through their outreach marketing and volunteerism She shows that when middle class parents engage in urban school communities they can bring a host of positive benefits including new educational opportunities and greater diversity But their involvement can also unintentionally marginalize less affluent parents and

diminish low income students access to the improving schools In response Posey Maddox argues that school reform efforts which usually equate improvement with rising test scores and increased enrollment need to have more equity focused policies in place to ensure that low income families also benefit from and participate in school change *Including Families and Communities in Urban Education* Catherine Hands, Lea Hubbard, 2011-04-01 The work of school family and community partnerships is complex and messy and demands a thoughtful and deep investigation Currently parent and community involvement does not draw on school reform and educational change literature and conversely the school change literature often ignores the crucial role that communities play in educational reform This edited volume focuses on structural considerations regarding education and the school communities school level and family culture and the interrelationships between the agency and actions of school personnel family members community citizens and students This book extends the dialogue on school reform by looking at parent and community engagement initiatives as part of the school reform literature The contributors illustrate the negative impact on students and their education when assumptions made by school personnel regarding the organization of education the nature of families and the contributions they should make to their children s education are not challenged The Publishers Weekly ,2009 Library Journal ,2009 **The British National**
