# How to Survive a Zombie Attack

The town of 100,000, is overrun with all zombies and must be evaded until 10 years in the making. Their objective is to "save" the entire human race from extinction! They need 1 zombie to begin their attack. This zombie was born 10 years ago, but they are not sure how long it will take them to completely take every human on the planet. Complicate the battle further is that there may be total zombies that will be every day for the first 10 days after attack. The original zombie will last only 10 days, but

keep in mind that every single zombie also has the power to kill the rest of the entire human race.

deal with it or what you should must do to survive a zombie attack So with that in mind I decided to create the official zombie survival manuscript and settle the matter for all time Well that didn't go quite as well as I expected it would No what I learned is that there are so many differing opinions on surviving a zombie attack or apocalypse that it was simply impossible to put into any sense of authoritative writing exactly what must be done I thought that perhaps it would be best to just let people tell me their stories their theories and their sincere beliefs about zombies and how best to not become one of them So with that in mind I began interviewing those that would openly talk about the subject matter and help me understand as best I could what in the world is going on Though I was able to interview several people ALL of them insisted that they remain hidden under a veil of secrecy and would not allow me to give their real names where they lived or how they came about with their theories on surviving a zombie apocalypse I agreed to their terms and have transcribed all of the interviews and put them into this writing No names or locations will be revealed but the information is valuable viable and important enough in my most humble opinion that it is a must read for anyone seriously or even not so seriously considering what is happening in the world today
