The Spanish-American War and Philippine Insurrection, 1898-1902 Mark Barnes,2010-09-13 An often overshadowed event in American military history the Spanish American War began as a humanitarian effort on the part of the United States to provide military assistance for the liberation of Cuba from Spanish domination At the time no one knew

that this simple premise would result in an American empire Through extensive research Mark Barnes has created a comprehensive annotated bibliography detailing this globally significant conflict and its aftermath Insightful notes are included for every title in each chronologically organized chapter By drawing together an impressive collection of sources including some previously not readily available to English language readers Barnes has created an invaluable resource for scholars of this conflict Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian

War Pigeons Elizabeth G. Macalaster, 2020-10-13 For more than seven decades homing pigeons provided the U S military with its fastest most reliable means of communication Originally bred for racing in the early 1800s homing pigeons were later trained by pigeoneers to fly up to 60 mph for hundreds of miles and served the United States for almost 75 years through four wars on four continents Barely weighing a pound these extraordinary birds carried messages in and out of gas smoke exploding bombs and gunfire They flew through jungles deserts and mountains not faltering even when faced with large expanses of ocean to cross Sometimes they arrived nearly dead from wounds or exhaustion refusing to give up until they reached their objective This book is the first complete account of the remarkable service that homing pigeons provided for the American armed forces from its fledgling beginnings after the Civil War to the birds invaluable role in communications in every branch of the U S military through both World Wars and beyond Personal narratives primary sources and news articles tell the story of the pigeons recruitment and training in the U S their deployment abroad and use on the home front

Cables, Crises, and the Press John A. Britton, 2013-12-30 In recent decades the Internet has played what may seem to be a unique role in international crises This book reveals an interesting parallel in the late nineteenth century when a new communications system based on advances in submarine cable technology and newspaper printing brought information to an excitable mass audience A network of insulated copper wires connecting North America the Caribbean South America and Europe delivered telegraphed news to front pages with unprecedented speed Britton surveys the technological innovations and business operations of newspapers in the United States the building of the international cable network and the initial enthusiasm for these electronic means of communication to resolve international conflicts Focusing on United States rivalries with European nations in Latin America he examines the Spanish American War in which war correspondents like Richard Harding Davis fed accounts of Spanish atrocities and Cuban heroism into the American press creating pressure on diplomats and government leaders in the United States and Spain The new information system also played important roles in the U S British confrontation in the Venezuelan boundary dispute the
