To find out more detail about the warning signs and how to help those struggling with an eating disorder, get June Hunt's *Anorexia and Bulimia Control: That is Out of Control*. What is Anorexia? Anorexia is an eating disorder characterized by compulsive, chronic self-starvation with a refusal to maintain a normal body weight. What are the warning signs of anorexia? People who are anorexic deny ever feeling hungry. They diet and exercise excessively, feel bloated, fat, or nauseated from eating even small amounts of food, and they see themselves as fat when they are truly too thin. What are some of the effects and symptoms of anorexia? Damages the brain and nerves, causing disordered thinking, extreme forgetfulness, seizures, moodiness, irritability, and dizziness. Destroys their heart, kidneys, hair, blood, fluid, intestines, muscles, joints, bones, hormones, teeth, and may even cause infertility. Causes anxiety, depression, suicide, insomnia, and often causes those with anorexia to have a distorted view of themselves, seeing themselves as fat even though they are skin and bones. What is Bulimia? Bulimia is a psychological eating disorder characterized by repeated or sporadic binge and purge episodes.

Bingeing involves eating large amounts of food in any setting in a short amount of time Purging may be done by the intentional vomiting of food or by the use of laxatives and diuretics What are the warning signs of bulimia People who are bulimic cope with emotional stress through overeating and then feel terrible afterward They practice self induced vomiting after eating They often suffer from general depression exercise excessively and base self worth on personal performance What are some of the effects and symptoms of bulimia Damages kidney brain lungs and other vital organs Deteriorates teeth esophagus and stomach due to purging Acid from stomach destroys teeth and causes gum disease sores in the mouth bleeding of the esophagus and pancreatitis caused by repeated stomach trauma Causes heart failure mortality rate from 5% to 15% of bulimics due to cardiac arrest What you need to know about those suffering from an eating disorder Those with eating disorders experience A strong desire to feel in control especially when nothing else in life makes sense Eating is the one part of my life I can control Loneliness because of the desire to avoid discovery I just cannot talk to anyone about this problem Low self worth because personal value is based on appearance I m a fat pig I don t deserve to live I don t deserve any help I am a bad person Depression over feeling fat although weight is normal or far below even to the point of looking like skin and bones Steps to a Solution How can someone overcome an eating disorder Here are just a few steps someone can take to start their journey toward healing Recognize that you have an eating disorder and acknowledge your need Share your struggle with a trusted friend and consider getting professional help Evaluate past events that still impact your life today and influence your decision making Avoid your destructive patterns and devise a plan of action to overcome unexpected temptations to skip a meal or to binge purge Flee your enticing triggers and commit to distract yourself whenever you suddenly feel compelled to act out with food This books gives practical insight on HOW to apply each of these principles to their lives You and those you help can be an overcomer as you discover your incredible worth through God s eyes His love will satisfy your starving soul and His truth will help align your thinking with God s thinking The Lord doesn t see things the way you see them People judge by outward appearance but the Lord looks at the heart 1 Samuel 16 7
