Laughter Notes On A Passion Short Circuits:

Laughter Anca Parvulescu, 2010-08-27 Uncovering an archive of laughter from the forbidden giggle to the explosive guffaw Most of our theories of laughter are not concerned with laughter Rather their focus is the laughable object whether conceived of as the comic the humorous jokes the grotesque the ridiculous or the ludicrous In Laughter Anca Parvulescu proposes a return to the materiality of the burst of laughter itself She sets out to uncover an archive of laughter inviting us to follow its rhythms and listen to its tones Historically laughter especially the passionate burst of laughter has often been a faux pas Manuals for conduct abetted by philosophical treatises and literary and visual texts warned against it offering special injunctions to ladies to avoid jollity that was too boisterous Returning laughter to the history of the passions Parvulescu anchors it at the point where the history of the grimacing face meets the history of noise In the civilizing process that leads to laughter's falling into disrepute as Nietzsche famously put it we can see the formless contorted face in laughter being slowly corrected into a calm social smile How did the twentieth century laugh Parvulescu points to a gallery of twentieth century laughers and friends of laughter arguing that it is through Georges Bataille that the century laughed its most distinct laugh In Bataille's wake laughter becomes the passion at the heart of poststructuralism Looking back at the century from this vantage point Parvulescu revisits four of its most challenging projects modernism the philosophical avant-garde feminism and cinema The result is an overview of the twentieth century as seen through the laughs that burst at some of its most convoluted junctures

All for Nothing Andrew Cutrofello, 2014-08-29 Hamlet as performed by philosophers with supporting roles played by Kant Nietzsche and others A specter is haunting philosophy the specter of Hamlet Why is this Wherefore What should we do Entering from stage left the philosopher s Hamlet The philosopher s Hamlet is a conceptual character played by philosophers rather than actors He performs not in the theater but within the space of philosophical positions In *All for Nothing* Andrew Cutrofello critically examines the performance history of this unique role The philosopher s Hamlet personifies negativity In Shakespeare s play Hamlet s speech and action are characteristically negative he is the melancholy Dane Most would agree that he has nothing to be cheerful about Philosophers have taken Hamlet to embody specific forms of negativity that first came into view in modernity What the figure of the Sophist represented for Plato Hamlet has represented for modern philosophers Cutrofello analyzes five aspects of Hamlet s negativity his melancholy negative faith nihilism tarrying which Cutrofello distinguishes from delaying and nonexistence Along the way we meet Hamlet in the texts of Kant Coleridge Hegel Marx Schopenhauer Kierkegaard Nietzsche Freud Russell Wittgenstein Heidegger Benjamin Arendt Schmitt Lacan Deleuze Foucault Derrida Badiou i ek and other philosophers Whirling across a kingdom of infinite space the philosopher s Hamlet is nothing if not thought provoking

Funny Moves Marta E. Savigliano, Hannah Schwadron, 2025-03-12 Funny Moves Dance Humor Politics explores the intersection of dance and humor and the political stakes that bodies incur when they dare to be both aestheticized and funny The editors posit that funny moves are dance s Other the missteps or oversteps that don t fit a particular dance form Funniness in dance whether gleeful surprising or odd causes disruptions which may be progressive or conservative inciting pleasures that counterbalance the artform s often serious codes Writing from Latin America the Caribbean South Asia Europe and the United States the book s ten authors provide diverse observational techniques and creative vocabularies for finding analyzing and theorizing funny moves across dance forms dance scenes and dance screens Some of the authors find hope in the laughter of their artist subjects and their audiences and some linger in the ambiguity and confusion so created Each essay takes on a single surprise factor or a choreographic comic rupture relishing in the amassed effects or affects across an absurdist cinematic staged or quotidian sequence What is funny in each case pops up as a wildcard that evokes recognizable shared experiences sometimes pushing back against dominant or mainstream logic and its supremacist laughter

What IS Sex? Alenka Zupancic, 2017-09-08 Why sexuality is at the point of a short circuit between ontology and epistemology Consider sublimation conventionally understood as a substitute satisfaction for missing sexual satisfaction But

what if as Lacan claims we can get exactly the same satisfaction that we get from sex from talking or writing painting praying or other activities The point is not to explain the satisfaction from talking by pointing to its sexual origin but that the satisfaction from talking is itself sexual The satisfaction from talking contains a key to sexual satisfaction and not the other way around even a key to sexuality itself and its inherent contradictions The Lacanian perspective would make the answer to the simple seeming question What is sex rather more complex In this volume in the Short Circuits series Alenka Zupan i approaches the question from just this perspective considering sexuality a properly philosophical problem for psychoanalysis and by psychoanalysis she means that of Freud and Lacan not that of the kind of clinician practitioners called by Lacan orthopedists of the unconscious Zupan i argues that sexuality is at the point of a short circuit between ontology and epistemology Sexuality and knowledge are structured around a fundamental negativity which unites them at the point of the unconscious The unconscious as linked to sexuality is the concept of an inherent link between being and knowledge in their very negativity

The Not-Two Lorenzo Chiesa, 2016-04-08 A philosophical examination of the treatment of logic and God in Lacan's later psychoanalytic theory In *The Not Two* Lorenzo Chiesa examines the treatment of logic and God in Lacan's later work Chiesa draws for the most part from Lacan's Seminars of the early 1970s as they revolve around the axiom There is no sexual relationship Chiesa provides both a close reading of Lacan's effort to formalize sexual difference as incompleteness and an assessment of its broader implications for philosophical realism and materialism Chiesa argues that There is no sexual relationship is for Lacan empirically and historically circumscribed by psychoanalysis yet self evident in our everyday lives Lacan believed that we have sex because we love and that love is a desire to be One in face of the absence of the sexual relationship Love presupposes a real not two The not two condenses the idea that our love and sex lives are dictated by the impossibility of fusing man's contradictory being with the heteros of woman as a fundamentally uncountable Other Sexual liaisons are sustained by a transcendental logic the so called phallic function that attempts to overcome this impossibility Chiesa also focuses on Lacan's critical dialogue with modern science and formal logic as well as his dismantling of sexuality as considered by mainstream biological discourse Developing a new logic of sexuation based on incompleteness requires the relinquishing of any alleged logos of life and any teleological evolution For Lacan the truth of incompleteness as approached psychoanalytically through sexuality would allow us to go further in debunking traditional onto theology and replace it with a para ontology yet to be developed Given the truth of incompleteness Chiesa asks can we think such a truth in itself without turning incompleteness into another truth about truth that is into yet another figure of God as absolute being

The Emperor's New Nudity Yuval Kremitzer, 2024-12-10 An analysis of contemporary authoritarianism and the medium in which it flourishes the internet as well as what lies at the complex intersection of authority and technology In recent decades a new style of authoritarian politics has taken hold throughout the liberal democratic world The new authority figures are characterized by obscene transgressive behavior reminiscent of the crowd leader as theorized by Freud only far

less transient In *The Emperor's New Nudity* Yuval Kreminitzer considers the fraught intersection of authority and technology the internet being the medium that has allowed contemporary authoritarianism to thrive asking foundational questions such as How can we think of the network as a social phenomenon What can social and political phenomena teach us about the nature of the new technology And how does technology reshape the very fabric of social and political life Technology Kreminitzer writes leads us toward an impersonal and hyperrational world to such an extent that it renders human subjectivity outmoded Authority on the other hand anchors our subjective identifications to certain figures and seems to be hopelessly primitive and irrational What is required then is a dialectics of the primal a study of the way in which what strikes us as essential enters into the dynamics of historical change From this perspective authority and technology can be said to be divided by a common object the unwritten law and the special knowledge that pertains to it a knowledge without knowers

The Trouble with Pleasure Aaron Schuster, 2016-02-09 An investigation into the strange and troublesome relationship to pleasure that defines the human being drawing on the disparate perspectives of Deleuze and Lacan Is pleasure a rotten idea mired in negativity and lack which should be abandoned in favor of a new concept of desire Or is desire itself fundamentally a matter of lack absence and loss This is one of the crucial issues dividing the work of Gilles Deleuze and Jacques Lacan two of the most formidable figures of postwar French thought Though the encounter with psychoanalysis deeply marked Deleuze's work we are yet to have a critical account of the very different postures he adopted toward psychoanalysis and especially Lacanian theory throughout his career In *The Trouble with Pleasure* Aaron Schuster tackles this tangled relationship head on The result is neither a Lacanian reading of Deleuze nor a Deleuzian reading of Lacan but rather a systematic and comparative analysis that identifies concerns common to both thinkers and their ultimately incompatible ways of addressing them Schuster focuses on drive and desire the strange convoluted relationship of human beings to the forces that move them from within the trouble with pleasure Along the way Schuster offers his own engaging and surprising conceptual analyses and inventive examples In the *Critique of Pure Complaint* he provides a philosophy of complaining ranging from Freud's theory of neurosis to Spinoza's intellectual complaint of God and the Deleuzian great complaint Schuster goes on to elaborate among other things a theory of love as mutually compatible symptoms an original philosophical history of pleasure including a hypothetical Heideggerian treatise and a Platonic theory of true pleasure and an exploration of the 1920s literature of the death drive including Thomas Mann Italo Svevo and Blaise Cendrars

The Dash-The Other Side of Absolute Knowing Rebecca Comay, Frank Ruda, 2018-05-04 An argument that what is usually dismissed as the mystical shell of Hegel's thought the concept of absolute knowledge is actually its most rational kernel This book sets out from a counterintuitive premise the mystical shell of Hegel's system proves to be its most rational kernel Hegel's radicalism is located precisely at the point where his thought seems to regress most Most current readings try to update Hegel's thought by pruning back his grandiose claims to absolute knowing Comay and Ruda invert this deflationary gesture

by inflating what seems to be most trivial the absolute is grasped only in the minutiae of its most mundane appearances Reading Hegel without presupposition without eliminating anything in advance or making any decision about what is essential and what is inessential what is living and what is dead they explore his presentation of the absolute to the letter The Dash is organized around a pair of seemingly innocuous details Hegel punctuates strangely He ends the Phenomenology of Spirit with a dash and he begins the Science of Logic with a dash This distinctive punctuation reveals an ambiguity at the heart of absolute knowing The dash combines hesitation and acceleration Its orientation is simultaneously retrospective and prospective It both holds back and propels It severs and connects It demurs and insists It interrupts and prolongs It generates nonsequiturs and produces explanations It leads in all directions continuation deviation meaningless termination This challenges every cliché about the Hegelian dialectic as a machine of uninterrupted teleological progress The dialectical movement is rather structured by intermittency interruption hesitation blockage abruptness and random unpredictable change a rhythm that displays all the vicissitudes of the Freudian drive

Liquidation World Alexi Kukuljevic, 2017-09-15 An examination of the disoriented subject of modernity a dissolute figure who makes an object of its absence from Baudelaire to Broodthaers In *Liquidation World* Alexi Kukuljevic examines a distinctive form of subjectivity animating the avant garde that of the darkly humorous and utterly disoriented subject of modernity a dissolute figure that makes an art of its own vacancy an object of its absence Shorn of the truly rotten illusion that the world is a fulfilling and meaningful place these subjects identify themselves by a paradoxical disidentification through the objects that take their places They have mastered the art of living absently of making something with nothing Traversing their own morbid obsessions they substitute the nonsensical for sense the ridiculous for the meaningful Kukuljevic analyzes a series of artistic practices that illuminate this subjectivity ranging from Marcel Duchamp's *Three Standard Stoppages* to Charles Baudelaire's melancholia He considers the paradox of Duchamp's apparatus in the *Stoppages* and the strange comedy of Marcel Broodthaers's relation to the readymade the comic subject in Jacques Vach and the ridiculous subject in Alfred Jarry the nihilist in Paul Valéry's *Monsieur Teste* Oswald Wiener's interpretation of the dandy and Charles Baudelaire as a happy melancholic Along the way he also touches on the work of Thomas Bernhard Andy Kaufman Buster Keaton and others Finally he offers an extended analysis of Danny's escape from his demented father in Stanley Kubrick's *The Shining* Each of these subjects is in Freud's terms sick sick in the specific sense that they assume the absence of meaning and the liquidation of value in the world They concern themselves with art without assuming its value or meaning Utterly debased fundamentally disoriented they take the void as their medium

How to Research Like a Dog Aaron Schuster, 2024-12-10 A provocative book that proposes a new and surprising inspiration for philosophy today the canine thinker from Kafka's story *Investigations of a Dog* Written toward the end of Kafka's life *Investigations of a Dog* *Forschungen eines Hundes* 1922 is one of the lesser known and most enigmatic works in the author's oeuvre Kafka's tale of philosophical adventure is that of a lone maladjusted dog who challenges the

dogmatism of established science and pioneers an original research program in pursuit of the mysteries of his self and his world In *How to Research Like a Dog* Aaron Schuster uses the canine as a guide dog to rediscover Kafka's fictional universe while taking up the cause of this ingenious possessed melancholy comical and revolutionary thinker Neither an exercise in literary criticism nor a traditional philosophical commentary this charming and idiosyncratic book aligns itself with the research program of Kafka's dog It constructs an impossible system based on the fourfold division of nourishment music incantation and freedom or stated a bit differently enjoyment art institutions and freedom From Plato to Flaubert Lispector and Lacan Schuster puts the dog in dialogue with psychoanalytic theory the history of philosophy and modern literature Imagining the Unknown University that Kafka's new science calls for the book enlists new comrades in the dog's struggle

Incontinence of the Void Slavoj Žižek, 2019-02-26 The formidably brilliant i ek considers sexuality ontology subjectivity and Marxian critiques of political economy by way of Lacanian psychoanalysis If the most interesting theoretical interventions emerge today from the interspaces between fields then the foremost interspaceman is Slavoj i ek In *Incontinence of the Void* the title is inspired by a sentence in Samuel Beckett's late masterpiece *Ill Seen Ill Said* i ek explores the empty spaces between philosophy psychoanalysis and the critique of political economy He proceeds from the universal dimension of philosophy to the particular dimension of sexuality to the singular dimension of the critique of political economy The passage from one dimension to another is immanent the ontological void is accessible only through the impasses of sexualization and the ongoing prospect of the abolition of sexuality which is itself opened up by the technoscientific progress of global capitalism in turn leading to the critique of political economy Responding to his colleague and fellow *Short Circuits* author Alenka Zupan i s *What Is Sex* i ek examines the notion of an excessive element in ontology that gives body to radical negativity which becomes the antagonism of sexual difference From the economico philosophical perspective i ek extrapolates from ontological excess to Marxian surplus value to Lacan's surplus enjoyment In true i ekian fashion *Incontinence of the Void* focuses on eternal topics while detouring freely into contemporary issues from the Internet of Things to Danish TV series What's That Smell? Simon Hajdini, 2024-03-05

How our sense of smell engages with philosophy psychoanalysis and political economy and how it can help enrich our understanding of the nature of truth language economy and sexuality Why is it that in Indo European languages at least we have no language to describe smells leaving us and famously Juliet no choice but to call the scent of a rose simply sweet In *What's That Smell* a groundbreaking exploration of the intersection between philosophy psychoanalysis and the oft neglected sense of smell Simon Hajdini sets out to answer this complex question Through new readings of traditional and modern philosophical texts Hajdini places smell at the very center of a philosophical critique of the traditional notion of truth challenging the idea that smell is the antiphilosophical sense par excellence Through fresh engagements with fundamental philosophical issues original analyses of modern literature and film and the novel use of scientific research into smell within a humanities context Hajdini situates problems of

olfaction at the very point of inception of cultural life He proposes that ontology civilization and capitalist economy alike can be said to amount to shit management And only by following the philosophically most deplorable of the senses the book argues can we better understand the central philosophical psychoanalytical and political issues of truth sex and exploitation

Subject Matter Aron Vinegar, 2023-11-28 A theorization of habit that emphasizes its excessive and unsettling qualities rather than its mediating adaptive and stabilizing functions Subject Matter offers a bold counterpoint to prevalent conceptions of habit characterized by bodily fluidity and ease as the stabilizing foundation of an emerging subjectivity or more negatively as a numbing and deadening force Instead of facilitating the coordination of action with goal and self with environment habit appears here as a disruptively recursive operation with extreme ontological implications that are often more quotidian than exceptional Vinegar theorizes habit's more perturbing aspects from repetition compulsion to kenosis to breakdown through an encounter between Hegel's philosophy of habit psychoanalytic dimensions of repetition Tom McCarthy's novel *Remainder* and Omer Fast's feature length film interpretation of the novel Vinegar starts with the premise that habit is an unhappy mediator a disturbance of the very medium and milieu that is constitutive of the subject Subject Matter pays close attention to those aspects of habit that are usually considered deviations from or potential threats to habit proper and that generate a logic of breakdown automaticity mechanization thingness inertia and fixity By plotting a topology of habit's unbearability through detailed accounts of its manifestation in writing art aesthetics and visuality and through an attentiveness to the unbalanced nonrelations between mediation and immediacy being and having fixity and fluidity vanishing and overflowing abbreviation and excess beginning and ending Vinegar exposes habit's failure to mediate and inhabit In doing so he offers new and counterintuitive insights into how habit generates the unruly grounds it is supposed to settle thus allowing us to ask how we might break down differently

Cloud: Between Paris and Tehran Joan Copjec, 2025-05-06 A theoretical examination of veiling shame and modesty in the films of the Iranian director Abbas Kiarostami through the lenses of Islamic philosophy and Lacanian psychoanalysis In *Cloud Between Paris and Tehran* Joan Copjec examines the films of the Iranian director Abbas Kiarostami The key to these films she argues lies in the image of a fragile yet sheltering tree that appears in several of his films This simple image depicts a central concept of Islamic philosophy which is known as the Cloud or the Imaginal World It designates the place out of which all the things of this world manifest themselves and covers or veils that which must remain hidden The concept of the Cloud plays a significant role in defining 1 the unique nature of the Islamic God who is not a creator or father 2 the nature of the image which assumes a priority and a greater power than it is elsewhere accorded and 3 the nature of modesty shame and sexuality Copjec walks her readers through the thicket of Islamic philosophy while demonstrating how its abstract concepts produce what audiences see on screen The most ambitious aspect of the book lies in its attempt to demonstrate the inheritance by psychoanalysis of a new notion of knowledge or gnosis formulated by Muslim thinkers who radically redefined the relation between body and
