Laws Of The Postcolonial Laws Of The Postcolonial:

Laws of the Postcolonial Eve Darian-Smith, Peter Fitzpatrick, 1999 Essays reveal the central part played by law in constituting the West as the antithesis of various others

Polygamy, Policy and Postcolonialism in English Marriage Law Zainab Batul Naqvi, 2023-01-25 Slaves mistresses concubines the English courts have used these terms to describe polygamous wives in the past but are they still seen this way today Using a critical postcolonial feminist lens this book provides a contextualized exploration of English legal responses to polygamy Through the legacies of British imperialism the book shows how attitudes to polygamy are shaped by indifference and hostility towards its participants This goes beyond the law as shown by the stories of women shared throughout the book negotiating their identities and relationships in the UK today Through its analysis the book demonstrates how polygamy and polygamous wives are subjected to imperialist and orientalist discourses which dehumanise them for practising a relationship that has existed for millennia

Postcolonial Transitional Justice Khanyisela Moyo, 2019-05-31 Transitional justice processes are now considered to be crucial steps in facilitating the move from conflict or repression to a secure democratic future This book contributes to a deeper understanding of transitional justice by examining the complexities of transition in postcolonial societies It focuses particularly on Zimbabwe but draws on relevant comparative material from other postcolonial polities Examples include but are not limited to African countries such as South Africa Rwanda and Mozambique European societies such as Northern Ireland as well as other nations such as Guatemala are also considered While amplifying the breadth of the subject of transitional justice the book addresses the claim that transitional justice mechanisms in postcolonial countries are necessary if the rule of law and the credibility of the country's legal institutions are to be restored Drawing on postcolonial legal theory and especially on analyses of the relationship between international law and imperialism the book challenges the assumption that a domestic rule of law deficit may be remedied with recourse to international law Taking up the paradigmatic perception that international law is neutral and has fixed rules it demonstrates how complex issues which arise during postcolonial transitions require a more critical adoption of transitional justice mechanisms

Law and Social Theory Reza Banakar, Max Travers, 2014-07-18 There is a growing interest within law schools in the intersections between law and different areas of social theory The second edition of this popular text introduces a wide range of traditions in sociology and the humanities that offer provocative contextual views on law and legal institutions The book is organised into six sections each with an introduction by the editors on classical sociology of law systems theory critical approaches law in action postmodernism and law in global society Each chapter is written by a specialist who reviews the literature and discusses how the approach can be used in researching different topics New chapters include authoritative reviews of actor network theory new legal realism critical race theory post colonial theories of law and the sociology of the legal profession Over half the chapters are new and the rest are revised in order to include discussion of recent literature

Decolonising International

Law Sundhya Pahuja,2011-09-29 The universal promise of contemporary international law has long inspired countries of the Global South to use it as an important field of contestation over global inequality Taking three central examples Sundhya Pahuja argues that this promise has been subsumed within a universal claim for a particular way of life by the idea of development As the horizon of the promised transformation and concomitant equality has receded ever further international law has legitimised an ever increasing sphere of intervention in the Third World The post war wave of decolonisation ended in the creation of the developmental nation state the claim to permanent sovereignty over natural resources in the 1950s and 1960s was transformed into the protection of foreign investors and the promotion of the rule of international law in the early 1990s has brought about the rise of the rule of law as a development strategy in the present day *Postcolonial Legality: Law, Power and Politics in Zambia* Jeremy Gould,2023-03-24 This book interrogates the ideology and practices of liberal constitutionalism in the Zambian postcolony The analysis focuses on the residual political and governmental effects of an imperial form of power embodied in the person of the republican president termed here prerogativism Through systematic long term ethnographic engagement with Zambian constitutionalist activists lawyers judges and civic leaders the study examines how prerogativism has shaped the postcolonial political landscape and limited the possibilities of constitutional liberalism This is revealed in the ways that repeated efforts to reform the constitution have sidelined popular participation and thus failed to address the deep divide between a small elite stratum from which the constitutional activists are drawn and the marginalized masses of the population Along the way the study documents the intimate interpenetration of political and legal action and examines how prerogativism delimits the political engagements of elite actors Special attention is given to the reluctance of legal activists to engage with popular politics and to the conservative ethos that undermines efforts to pursue a jurisprudence of transformational constitutionalism in the findings of the Constitutional Court The work contributes to the rising interest in applying socio legal analysis to the statutory domain in postcolonial jurisdictions It offers a pioneering attempt to deconstruct the amorphous and ambivalent assemblage of ideas and practices related to constitutionalism through detailed ethnographic interrogation It will appeal to scholars students and practitioners with an interest in theorizing challenges to political liberalism in postcolonial contexts as well as in rethinking the methodological toolbox of socio legal analysis

The Aims and Methods of Postcolonial International Law Chin Leng Lim,2024-10-28 Criticism of colonial justifications has been familiar since the age of Sep lveda and Las Casas Yet today it is said that international law is and always was an instrument of colonialism It is true that the ius gentium and the Law of Nations failed to prevent colonialism and were used in fact to justify colonialism Still such failures which occurred over the successive periods of European colonization of non European peoples did not implicate the whole of international law thought That is just a modern exaggeration but rather than repair the international law that we have for example in our discussions about colonial reparation some now wish us to reject international law altogether In seeking to cast present day criticisms in a proper light

these lectures at the Hague Academy had discussed the more notable literature including in judgments and arbitral awards from the time of the classic works that are connected to the history of the subject to the present day Now presented in pocketbook form the objective is the same which is to explain the aims and methods of post colonial criticism and to reject the view that it is too late for international law

Comparative Discrimination Law Laura Carlson,2017-12-11 Human history is marked by group and individual struggles for emancipation equality and self expression This first volume in the Brill Research Perspectives in Comparative Discrimination Law briefly explores some of the history underlying these efforts in the field of discrimination law A broad discussion of the historical development of issues of discrimination is first set out looking at certain international regional and national bases for modern discrimination legal structures Several of the theoretical frameworks invoked in a comparative discrimination law analysis are then addressed either as institutional frameworks or theories addressing specific protection grounds This first volume is dedicated to setting out an introduction to the field of comparative discrimination law to give the reader a platform from which to undertake further reading and research in the compelling topic of comparative discrimination law

Law, Orientalism and Postcolonialism Piyel Haldar,2007-12-05 Focusing on the problem of pleasure Law Orientalism and Postcolonialism uncovers the organizing principles by which the legal subject was colonized That occidental law was complicit in colonial expansion is obvious What remains to be addressed however is the manner in which law and legal discourse sought to colonize individual subjects as subjects of law It was through the permission of pleasure that modern Western subjects were refined and domesticated Legally sanctioned outlets for private and social enjoyment instilled and continue to instil within the individual tight self control over behaviour There are however states of behaviour considered to be repugnant to and in excess of modern codes of civility Drawing on a broad range of literature including classical jurisprudence eighteenth century Orientalist scholarship early travel literature and nineteenth century debates surrounding the rule of law yet concentrating on the experience of British India the argument here is that such excesses were deemed to be an Oriental phenomenon Through the encounter with the Orient and with the fantasy of its excess Piyel Haldar concludes the relationship between the subject and the law was transformed and must therefore be re assessed

Minorities and the Making of Postcolonial States in International Law Mohammad Shahabuddin,2021-06-10 The ideological function of the postcolonial national liberal and developmental state inflicts various forms of marginalisation on minorities but simultaneously justifies oppression in the name of national unity equality and non discrimination and economic development International law plays a central role in the ideological making of the postcolonial state in relation to postcolonial boundaries the liberal individualist architecture of rights and the neoliberal economic vision of development In this process international law subjugates minority interests and in turn aggravates the problem of ethno nationalism Analysing the geneses of ethno nationalism in postcolonial states Mohammad Shahabuddin substantiates these arguments with in depth case studies on the Rohingya and the hill people of the Chittagong Hill Tracts

against the historical backdrop of the minority question in Indian nationalist and constitutional discourse Shahabuddin also proposes alternative international law frameworks for minorities
