Dirk van den Heuvel, Maarten Mesman, Bert Lemmens, 2008-09-15 Conservation of architecture and the conversation of Modern architecture in particular has assumed new challenges Rather than attempting to return a Modern building to its resumed original state the challenge of these proceedings is to revalue the essence of the manifold manifestations of Modern architecture and redefine its meanings in a rapidly changing world of digital revolution worldwide mobility and environmental awareness This volume aims to provide a variety of platforms for the exchange of ideas and experience A large international group of architects historians scholars preservationists and other parties involved in the processes of preserving renovating and transforming Modern buildings has been invited to investigate the paradox of the Modern monument and to reflect on the manifold dilemmas of change and continuity The general theme is elaborated through five sub themes The sub theme Change and Continuity addresses the tensions between change and continuity from a historical theoretical perspective Restructuring Cities and Landscapes focuses on the larger scale of city and landscape while Shifts in Programme and Flexibility draws attention to the scale of the building or building complex and questions limits of re use and flexibility The fourth sub theme deals with education and the fifth sub theme Progress Technology and Sustainability considers specific issues of techniques and materials

La habitaci n Xavier Monteys, 2015-01-13

Es habitual que en los libros de teor a e historia de la arquitectura las viviendas aparezcan representadas nicamente por sus salas de estar dejando de lado el resto de habitaciones Pareciera que a pesar de su mayor n mero el dormitorio no tuviera trascendencia alguna en una vivienda Sencillamente no se piensa en l El predominio de la sala de estar sobre cualquier otro tipo de estancia limita el potencial que podr a tener la vivienda contempor nea Este ensayo aboga por una casa con mayor sentido y complejidad y a trav s de la reflexi n en torno a la habitaci n con usos diversos defiende la ambig edad y la no especializaci n de los espacios dom sticos Para ello Xavier Monteys recurre a una colecci n variada de estancias de procedencia heterog nea Encontramos habitaciones ante las que se ha desempolvado la mirada para volver a observarlas otras extra das de algunos textos literarios o sacadas de lienzos de exposiciones y museos y otras procedentes de instalaciones y experimentos realizados por artistas contempor neos El conjunto se convierte en una casa con muchas habitaciones que permiten diferentes modos de vida y por la que podemos transitar de un modo imaginario y sobre todo desencadenar un flujo de nuevas miradas que transformen nuestra concepci n reduccionista de la vivienda contempor nea

La Rueda de la Fortuna en Bogotá Gómez Sánchez, Juan

Carlos, 2021-12-06 Para el sello editorial del IDPC el tema de los parques de Bogotá ha representado en los últimos tiempos uno de los focos de exploración más prolíficos desde los cuales ha sido posible expandir y complejizar las interpretaciones sobre el patrimonio cultural de la capital El primer título de esta línea temática fue Parque del Centenario Transformación urbana itinerario y significado de Hugo Delgadillo publicado en 2019 al que le sobrevino La vida privada de los parques y jardines públicos Bogotá 1886 1938 de Claudia Cendales Paredes publicado en 2020 El impulso dado por este último título permitió que se consolidara la iniciativa de dar continuidad a esta línea a partir de dos nuevos libros El Parque Nacional Olaya Herrera de Bogotá 1934 2021 de Sandra Reina Mendoza y el que presentamos en estas líneas La rueda de la fortuna en Bogotá 1910 1934 acerca de dos parques el Lago Gaitán y el Luna Park Más allá de un estudio alentado por la nostalgia o bien por los anhelos de rememorar la vida de dos espacios desaparecidos que otrora fueron significativos para la ciudad en esta investigación Juan Carlos Gómez propone un análisis que devela las lógicas económicas y políticas que propiciaron sendos proyectos urbanos cuyo propósito fue el aprovechamiento rentable de los terrenos sobre los cuales se habían asentado tanto el Luna Park como el Lago Gaitán Un grupo compuesto por comerciantes terratenientes empresarios y concejeros municipales además de algunos miembros de la Sociedad de Embellecimiento capitalizaron el valor de los terrenos localizados en el norte de Chapinero para el caso del Lago Gaitán y en el sur de la capital para el caso del Luna Park El resultado de esta alianza que subordinó la política urbanística a la esfera del usufructo económico se evidencia no solamente en la ausencia de cualquier

huella perceptible en la geografía de la ciudad de lo que fueron estos parques sino también en la manera relativamente azarosa con que se desarrollaron los procesos de configuración espacial de los barrios en ambas zonas. Con el propósito de dilucidar los efectos de la alianza entre poderosos sectores sociales en su empresa por rentabilizar vastos terrenos de la capital. La rueda de la fortuna apela a un detallado análisis catastral a través del cual presenta una reconstrucción predial que evidencia las dinámicas de loteo y venta concebidas para las áreas mencionadas. En este sentido más que exhortar a la historia en razón a la añoranza o a la idealización de aquello perdido la investigación se sitúa en una indagación histórica por el comportamiento de las élites entramados y connivencias a partir de las cuales se dio forma al crecimiento de la capital desde el siglo pasado.
