Remote Learning and Distance Education William H. Pruden III, 2024-11-14 Remote learning and distance education burst into the national consciousness with the onset of the COVID 19 pandemic yet it remains poorly understood in many ways Explore a range of debates around this timely topic including can remote learning models of educational instruction produce the same or better academic results than in school learning What are the socialization impacts of remote learning What do education experts think is the next frontier in remote learning This book explores those questions and many more Remote Learning and Distance Education provides the historical background and context for understanding the origins and evolution of distance education an evolution which was accelerated dramatically and in unpredictable ways when the COVID 19 pandemic transformed millions of actual classrooms into virtual ones Readers will better understand the problems controversies and solutions surrounding distance education from access and equity issues to maintaining academic integrity Profiles of key figures and organizations such as Khan Academy give readers an introduction to important players in this potentially revolutionary approach to teaching and learning

Technology-Enhanced Learning and the Virtual University Michael David Sankey, Henk Huijser, Rachel Fitzgerald, 2023-09-20 Since the first works on Higher Education Administration in the 1970s no comprehensive work in terms of purpose and scope of Higher Education has been published There have been important changes in people s aspirations vis vis higher education globally In parallel the higher education systems worldwide have been undergoing constant transformation in response to these aspirations From governments employers and prospective students and their parents the stakeholders in higher education system are now extremely varied paying close attention to the various aspects of higher education from infrastructure on campus safety and security to administration faculty and curricula The present series attempts to take into account the issues of importance to all the stakeholders Hence the series not only pays attention to the purpose and outcomes of higher education but also the economics surrounding higher education vis a vis marketization The nitty gritty of running and maintaining a university infrastructure impact of globalization and internationalization on delivery and demand of higher education the commoditization of research and changing paradigms of teaching and learning fall within the purview of the series The increasing competition from other entities to provide degrees certificates or other forms of credentials makes it important to have a work that brings all of the elements together to see how they actually interact and inter relate from a systems perspective The present series attempts to comprehensively attend to these issues and provide a complete reference resource to all those involved and interested in setting up of a Higher Education institution and its administration
