Teaching a Learner Driver Don Gates, 2020-05-12 If you're thinking of teaching someone to drive this is the book you need Teaching a learner driver how hard could it be Many years ago a sister of mine expressed an interest in learning to drive Being a keen driver myself I thought teaching a learner driver would be fun However I didn't realise how unprepared I was Some years later I took training myself and went on to become a professional driving instructor I worked for a local driving school for a while before taking further training and joining the British School of Motoring for a couple of years When I decided to start up my own driving school the family came to me for lessons Things went according to plan this time because in the meantime someone had taught me how to teach The Benefit of Experience With four decades years of experience both as a driving instructor and driving examiner I will help you to train a learner driver to be safe confident and capable With the help of this book you will learn how to structure lessons deliver driving instruction like a professional avoid many of the pitfalls that amateur teachers fall into The instructions are easy to follow and all tricky points are illustrated with clear diagrams The book covers everything you need including basic car controls use of

mirrors and as a result your learner driver should pass first time UK Driving Skills All Rights Reserved <https://www.ukdrivingskills.co.uk> *Learner Drivers Handbook* James Duggan, 2018-02-22 This Learner Drivers Handbook has been prepared to help learners pass their DVSA driving test first time The author is a great believer in the maxim What you hear you will forget what you see you will remember and what you do you will learn It uses detailed colour images to follow closely the requirements for learning to drive as laid down by the Driving Vehicle Standards Agency In its various sections it includes the following 1 Twelve complete and fully colour illustrated lesson plans covering all the elements which can be tested 2 How to get the best out of the lesson plans to ensure success in your driving test 3 Over 150 fully detailed colour illustrations each of which focuses on a relevant issue and designed for ease of presentation 4 A lesson plan guide with a breakdown of all the diagrams included in each lesson plan The lesson plans have been set out in a general logical order with a view to going from novice to test standard and beyond However the order in which the plans are presented and the subject matter should be adapted to meet specific needs Like any instructional manual of this type the users should thoroughly familiarise themselves with its content and general layout in order to gain maximum benefit At the back of this book you will see Other Publications by This Author one of which is entitled Easy Lessons for Learner Drivers The content is exactly the same but it is a larger sized edition which some pupils might prefer for home study Many driving instructors have their own version of this book thus ensuring that you are both following the same structured lessons **Driver Selection and**
