with an exchange of gestures between parent and infant Through these intimacies of everyday life the parent transmits to the child the emotional language of his species and eventually the verbal language and symbolic communication that enable the child to participate in human culture Once having entered into the human dialogue we cannot live without it The dialogue continues even after death Using a wide variety of examples from the child suffering brief separation anxiety to children of Holocaust victims to parents coping with the lifelong grief of losing a child Dr Kaplan demonstrates how to keep the voices of lost loved ones eternally alive
