typical day for Daphne involves rescuing baby elephants from poachers finding homes for orphan elephants all the while campaigning against the possibility that the ivory trade might be re opened An African Love Story is the incredible memoir of her life It tells two stories The first is the Tsavo years and the extraordinary love story which blossomed when the young Daphne moved to Tsavo with her first husband and fell head over heels with both the park and its famous warden David Sheldrick The second is the love story of how Daphne and David who devoted their lives to saving elephant orphans at first losing every infant under the age of two until Daphne at last managed to devise the first ever milk formula which would keep them alive Publishers description Measured by Soul: The Life of Joseph Carey Merrick (also known as 'The Elephant Man') Jeanette Sitton & Mae Siu-Wai Stroshane, 2012 Joseph Merrick the Elephant Man was a 19th century Englishman who suffered disfigurement from an extremely rare disorder which is believed to be Proteus Syndrome Though his physical and mental suffering was great he remained courageous Measured by the Soul is lavishly illustrated with never seen before photographs of Joseph's life and Victorian times This book also features interviews with modern patients who live with Proteus Syndrome as well as exciting news from Dr Leslie Biesecker of the National Institute of Health in Bethesda Maryland Thanks to Dr Biesecker's research there is hope for new treatment of Proteus Syndrome and its ultimate cure Proceeds from this book will benefit Proteus Syndrome treatment and research An Elephant in My Kitchen Françoise Malby-Anthony, Katja Willemsen, 2019-11-05 THE INTERNATIONAL BESTSELLER Malby Anthony offers a book of great inspiration and wide appeal to nature loving readers Publishers Weekly A heart warming sequel to the international bestseller The Elephant Whisperer by Lawrence Anthony s wife Fran oise Malby Anthony A chic Parisienne Fran oise never expected to find herself living on a South African game reserve But then she fell in love with conservationist Lawrence Anthony and everything changed After Lawrence's death Francise faced the daunting responsibility of running Thula Thula without him Poachers attacked their rhinos their security team wouldn t take orders from a woman and the authorities were threatening to cull their beloved elephant family On top of that the herd's feisty new matriarch Frankie didn t like her In this heart warming and moving book Fran oise describes how she fought to protect the herd and to make her dream of building a wildlife rescue center a reality She found herself caring for a lost baby elephant who turned up at her house and offering refuge to traumatized orphaned rhinos and a hippo called Charlie who was scared of water As she learned to trust herself she discovered she d had Frankie wrong all along Filled with extraordinary animals and the humans who dedicate their lives to saving them An Elephant in My Kitchen is a captivating and gripping read War and Peace with the Beasts Brian Griffith, 2020-09-01 The animals that one culture likes are often hated in the next and it seems that the animals themselves know it well Basically one culture s animal partner is often another culture s nightmare from hell Naturally I wonder how relations between people and animals got to be so different around the world How did it happen that some cultures treat bats snakes wolves or ravens as embodiments of evil while other people treat the same animals with affection or even reverence

Our wars with the animals go way back Beyond the light cast by our prehistoric campfires the eyes glowing in the night seemed to represent a great hostile force As we began to cultivate crops and husband a few favoured animals we generally regarded other creatures as threats to our chosen few Using the logic of war we sought to maximize the populations of certain creatures and the destruction of others In the past that war effort was our great crusade for the advancement of civilization as we knew it The war had a frontier a front line and an ongoing battle on the home front Expanding outward from our various cradles of civilization we progressively tamed the forests and grasslands converting them to monocrop plantations or pastures Then we had to defend our monocrops from encroaching weeds insects and wild animals In this immediately engaging story and fact filled page turner of a book Brian Griffith looks at the range of ways we relate to animals and the stories we tell about them He asks how we choose whether buddyhood fearful respect businesslike predation or genocidal war is the most appropriate response to each species we meet He watches how our treatment of inferior beings affects our treatment of inferior people and traces some of the chain reactions we unleash when we try to weed out species we don't like Without much hope of making animals fit my personal preferences he writes I wonder how good our relations Through the Eyes of Ernest D. McFee, 2014-01-08 Ever wonder what happens to the zoo and circus elephants after the all the people go home for the day Ernest knows Ernest is a captive born elephant with no connection to his wild relatives He has had no chance to experience the wild and this is perhaps his greatest tragedy He doesn t know what he is missing but he s about to find out Ernest is one of thousands of elephants kept in zoos and circuses for the amusement of humans Throughout the day humans stare at him and make silly faces At night he s confined to a tiny paddock He has no idea about life in the wild where close knit families of elephants live as long as humans presuming humans let them His first elephant friend wild born Frankie tells Ernest all about the pleasures of living wild and the family he misses so much When humans send Ernest to the circus to perform he meets other wild born elephants including wise old Mary and majestic motherly Eve Ernest learns more about what he s been denied even as he discovers the rigorous sometimes brutal world of circus training A somber but ultimately hopeful tale told from an elephant's point of view Through the Eyes of Ernest A Memoir to Honor Elephants asks us to consider why we keep such intelligent social animals in captivity **Ecologies** Charis Enns, Brock Bersaglio, 2024-05-01 Settler Ecologies tells the story of how settler colonialism becomes memorialized and lives on through ecological relations Drawing on eight years of research in Laikipia Kenya Charis Enns and Brock Bersaglio use immersive methods to reveal how animals and plants can be enrolled in the reproduction of settler colonialism The book details how ecological relations have been unmade and remade to enable settler colonialism to endure as a structure in this part of Kenya It describes five modes of violent ecological transformation used to prolong structures of settler colonialism eliminating undesired wild species rewilding landscapes with more desirable species to settler ecologists selectively repeopling wilderness to create seemingly more inclusive wild spaces and capitalize on biocultural diversity

rescuing injured animals and species at risk of extinction to shore up moral support for settler ecologies and extending settler ecologies through landscape approaches to conservation that scale wild spaces Settler Ecologies serves as a cautionary tale for future conservation agendas in all settler colonies While urgent action is needed to halt global biodiversity loss this book underscores the need to continually question whether the types of nature being preserved advance settler colonial structures or create conditions in which ecologies can otherwise be re made and flourish **Animal Wisdom** Linda Bender, 2014-06-10 How is it that pets are able to travel thousands of miles through unknown territory to reunite with their beloved humans How can dogs detect cancer with up to a 98 percent accuracy rate and foresee epileptic or diabetic seizures in their owners How do animals seem to know an earthquake is coming long before the world's best seismologists In Animal Wisdom veterinarian and animal advocate Linda Bender offers a wealth of amazing stories and research based evidence indicating animals have deeply perceptive even extrasensory abilities. zoological imagination found in a wide variety of genres of ancient Christian texts In the Eye of the Animal complicates the role of animals in early Christian thought by showing how textual and artistic images and interpretive procedures actually celebrated a continuum of human and animal life Synthesizing early Christian studies contemporary philosophy animal studies ethology and modern poetry Miller identifies two contradictory strands in early Christian thinking about animals The dominant thread viewed the body and soul of the human being as dominical or the crowning achievement of creation animals with their defective souls related to humans only as reminders of the brutish physical form However the second strand relied upon the idea of a continuum of animal life which enabled comparisons between animals and humans This second tendency explains Miller arises particularly in early Christian literature in which ascetic identity the body and ethics intersect She explores the tension between these modes by tracing the image of the animal in early Christian literature from the ethical animal behavior on display in Basil of Caesarea s Hexaemeron and the anonymous Physiologus to the role of animals in articulating erotic desire and from the idyllic intimacy of monks and animals in literature of desert ascetism to early Christian art that envisions paradise through human animal symbiosis Africa and World War II Judith Ann-Marie Byfield, Carolyn A. compelling journey into the competing worlds of activism and corruption Lifts the lid on the ongoing threat to the endangered species Daily Telegraph Gripping tense and timely Alan Johnson Warfare and Tracking in Africa, 1952–1990 Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia Gone is Gone Isabelle Groc, 2019-09-24 Why do species become endangered How are scientists learning about endangered wildlife What are people doing to conserve species and how can young people help This book is richly illustrated with unique photos that Isabelle has taken over many years of observing endangered species in the field alongside the people who work to conserve them Throughout the author shares enchanting encounters and personal field stories watching narwhals socialize in the Canadian Arctic getting close to a Laysan albatross raising chicks on a remote Hawaiian island spotting a rhinoceros on safari and even swimming with sea lions in the Gal pagos Islands Gone is Gone will inform intrigue and inspire readers to take small steps toward big changes for endangered species around the world The epub edition of this title is fully accessible
