Daniel Abdal Hayy Moore **Bandish as Text** Barnashree Khasnobis, 2024-11-07 This book provides a socio cultural analysis of khayal bandishes composed by Ne mat Khan Sadarang and Feroze Khan Adarang It argues that deciphering khayal bandishes as cultural symbols provides an understanding of the constitution of medieval Indian society and shows how society gets represented via such symbols The author examines the cultural forces that nurtured the context of compositions by Sadarang and Adarang She touches upon the cultural exchanges between Hindu and Muslim communities through scholarly and philosophical discourses to create a rationale for khayal as a syncretic form of art A unique contribution to the study of Indian culture and music the book will be an indispensable resource for students teachers and researcher scholars of South Asian studies Hindustani music cultural studies history and medieval Indian society The Rendezvous Sarah Isaias, 2017-01-19 Embarking on a dangerous quest for the physical and metaphysical origins of the world s great religious traditions this modern love story follows a Muslim poet and a Jewish physician in the global search for a poem they believe to be the key to humanity s redemption After traveling the world and facing off against shadowy conspirators and violent extremists they discover a truth that is powerfully simple yet never more urgent **Awakening the Creative Spirit** Christine Valters Paintner, Betsey Beckman, 2010-02 The resource is designed to help spiritual directors and others use expressive arts in the context of spiritual direction It is the latest book in the unique SDI series designed for professional spiritual directors but also useful for clergy therapists and Christian formation specialists The Spiritual Directors International Series This book is part of a special series produced by Morehouse Publishing in cooperation with Spiritual Directors International SDI a global network of some 6 000 spiritual directors and members *Islam and Christianity* John Renard, 2011-03-08 In light of the widespread public perception of incompatibility between Islam and Christianity this book provides a much needed straightforward comparison of these two great faith traditions from a broad theological perspective Award winning scholar John Renard illuminates the similarities as well as the differences between Islam and Christianity through a clear exploration of four major dimensions historical creedal institutional and ethical and spiritual Throughout the book features comparisons between concrete elements such as creedal statements prayer texts and writings from major theologians and mystics It also includes a glossary of technical theological terms For western readers in particular this balanced authoritative work overturns some common stereotypes about Islam especially those that have emerged in the decade since September 11 2001 **The 'Book' of Travels: Genre, Ethnology, and Pilgrimage, 1250-1700** Palmira Brummett, 2009-04-24 The early modern era is often envisioned as one in which European genres both narrative and visual diverged indelibly from those of medieval times This collection examines a disparate set of travel texts dating from the thirteenth to the seventeenth centuries to question that divergence and to assess the modes themes and ethnologies of travel writing It demonstrates the enduring nature of the itinerary the variant forms of witnessing including imaginary maps the crafting of sacred space as a cautionary tale and the use of the travel narrative to represent the transformation of the

authorial self Focusing on European travelers to the expansive East from the soft architecture of Timur's tent palaces in Samarkand to the ambiguities of sexual identity at the Mughal court these essays reveal the possibilities for cultural translation as travelers of varying experience and attitude confront remote and foreign or not so foreign space

Befarmaid Dr. Shadab Ahmed, 2023-05-10 India has always been a region of multiple cultures and ethnicities comprising a multifaceted colorful and genuinely diverse civilization of innumerable peoples beliefs and languages The political domination of Muslim dynasties from Central Asia from the Ghaznavid conquests onwards led to Persian being grafted into the Indian subcontinent as the official language of governance and high culture As classical Persian culture fell into abeyance during the Middle Ages and the Islamic West disintegrated into chaos India fostered a Persian cultural renaissance of unparalleled literary achievement by migrants to India as well as by Indians themselves However from the beginning of the seventeenth century Urdu began to form around the lower echelons of society as a common tongue to enable communication between the myriad ethnicities of the Mughal Empire ultimately restricting Persian to a refined language of culture and courtly life in the Mughal court and becoming a vibrant and dynamic language in its own right thus becoming the first literary language with a substantial original contribution from Indians since ancient Sanskrit Presented in this book are proses minstrelsy and parnassus straight from the kings emperors saints prisoners and outlaws of the Mughal court and jurisdiction as well as the beau monde and aristocracy of the Mughal India The Man with Six Typewriters Steve

Doughty, 2015-03-23 In this collection of non fiction narratives Steve Doughty offers an evocative exploration of contemporary spiritual seeking The figures in these stories are as varied as a Muslim woman and Christian couple meeting at a peace vigil a minister dazzled by photos from the Hubble telescope a Native American stone carver a miner receiving his last communion and two attorneys risking their lives to defend victims of political violence in Colombia A number of the main figures live on society's margins They contend with issues of life and faith in arenas ranging from social justice to science prayer mental illness sexuality interfaith encounter and the humdrum of daily life The author notes that the main characters have attracted him as a pastor and seeker because they offer images to ponder Images of real people Images of the wonderings and affirmations that take shape within our deepest selves And finally images of the living God at work within us among us and through us As with all such images these challenge us at least as much as they comfort and reassure An appendix offers questions for personal reflection group study and retreats Green Hermeticism Peter Lamborn

Wilson, Christopher Bamford, Kevin Townley, 2007-05 Hermeticism or alchemy is the ancient primordial mystery science of nature through which people in all times and places have for the sake of world evolution sought to unite Heaven and Earth divinity cosmos earth and humanity as a single whole Selfless intimate dedicated to healing and harmony Hermeticism has accompanied and sustained every religious epoch and revelation It may be found in all historical cultures from the traditions of India and China in the East to the Judeo Christian West It could even be said that Hermeticism is the primal cosmological

revelation and the common ground of all spiritual traditions Nevertheless in the great revival of mystical esoteric traditions and practices during the last century Hermetic tradition in fact Nature herself has been largely ignored Today when the Earth seems most under attack Green Hermeticism is especially appropriate The book explores not only the ancient Masters inner science but also their science of Nature During spring and summer 2006 Pir Zia Khan convened a series of gatherings to begin to unfold the contemporary meaning of ancient sacred science for our time Green Hermeticism is a partial record of that meeting Peter Lamborn Wilson explores the many ramifications of the alternative worldview offered by Hermeticism Christopher Bamford provides a broad historical overview of the tradition from the Ancient Mysteries to contemporary manifestations of the alchemical tradition while Kevin Townley brings a practical dimension to the gathering teaching the preparation of herbal elixirs and demonstrating that cosmology and philosophy can become a truly healing path for the Earth Green Hermeticism is necessary reading for anyone seeking a spiritual and cultural path for the healing of the current ecological and cultural crisis In Alchemy there is an injunction to quicken or revive the dead which is illustrated by a dead tree growing verdant again That is exactly what this wonderful and rare work does in awakening human consciousness to its Divine potential and Ultimate Destiny Art thus helps Nature to achieve its ideal Perfection The authors must be congratulated for their insightful words I wholeheartedly recommend reading it again and again and again Stanislas Klossowski de Rola author Alchemy The Secret Art and The Golden Game Alchemical Engravings of the Seventeenth Century Environmental solutions today are largely technical but the planetary crisis is also a crisis of soul or better yet of the Imagination Too tricky for religion too poetic for reductionist science Green Hermeticism reheats a prophetic imagination still in love with the material world a new alchemy of ancient nature Erik Davis author The Visionary State A Journey through California s Spiritual Landscape Just when you felt numb and disenfranchised thinking the world had become bleak and dead along comes this rare much needed book to remind us that there is still some sanity depth and creative energy percolating up from the heart of Reality Thank God and the Goddess Nature for this smart and inspiring breath of fresh air Green Hermeticism is where the wasteland ends and where the world becomes re enchanted with genuine living thought that goes beyond superficialities It s a rare pleasure to be in the presence of living minds who actually know something wonderful and have not been deadened by the opiates of capital or the tenure track Very highly recommended David Fideler publisher Phanes Press editor Alexandria author of Jesus Christ Sun of God and translator of Love s Alchemy Poems from the Sufi Tradition with Sabrineh Fideler The publication of Green Hermeticism has the sense we so rarely get of a genuine moment in cultural history It is not just the eloquence of its authors knowledge and arguments or that they are showing us once again the depth and range and beauty of alchemy and the Hermetic tradition and what Peter Lamborn Wilson calls Romantic Science Nor is it even the links they establish between the Hermetic tradition and ecology and the value of a science that perceives the world as alive rather than a machine What makes this work significant is the sense that it shows us how we can use these ideas and

knowledge to create a genuine counter to destruction and despair an alchemy of our politics as well as of our spirit Rachel Pollack author of 78 Degrees of Wisdom A Book of Tarot Green Hermeticism reminds us that the art of the Great Work is to enter more deeply into the dynamic and practical wisdom of the universe which is our laboratory where work and prayer combine When we engage with the All we know ourselves to be one kindred with all in the viriditas God's greening power where body soul and spirit honor each other Caitlín John Matthews authors of Walkers Between the Worlds The Western Mysteries from Shaman to Magus

Approaches to Kurban Said's Ali and Nino Carl Niekerk, Cori Crane, 2017 Essays showcasing the novel Ali and Nino as particularly topical for today's readers both in and out of the classroom and providing a number of diverse approaches to it

Making the New Middle East Valerie J. Hoffman, 2019-02-28 Demands for freedom justice and dignity have animated protests and revolutions across the Middle East in recent years from the Iranian Green Movement and the Arab Spring uprisings to Turkey's March for Justice and the ongoing struggle in Palestine Although expectations raised by the Arab Spring were largely disappointed and protests that toppled entrenched rulers unleashed vicious counterrevolutionary forces there is no doubt that the landscape of the Middle East has changed Drawing from diverse disciplines this volume offers critical perspectives on these changes covering politics religion gender dynamics human rights media literature and music What ultimately has changed in the new Middle East Who are the actors pushing the direction of change How are aspirations for change being expressed through media and the arts With extensive analysis and thoughtful reflection this book gives readers an in-depth portrayal of a modernizing Middle East
