[Elementary and Middle School Mathematics](#) John A. Van de Walle, 1998. John A. This book thoroughly discusses the new standards and clearly develops four key aspects of teaching mathematics: the nature of mathematics as a science of pattern and order, an understanding of how children learn mathematics, a problem solving view of teaching mathematics, and specific methods for integrating assessment with instruction. Simple yet effective classroom activities are woven throughout the chapters, as well as suggestions for technology and literature. [Math and Literature](#) Marilyn Burns, Stephanie Sheffield, 2004.
